

4XEM 30M USB 2.0 Active Extension Cable

4XEM Part- 4X3202A130M

Introducing the 4XEM 30M USB 2.0 Active Extension Cable, the perfect solution to extend your USB connections with unmatched reliability and performance.

Powered dual in-line signal boosters, this cable ensures strong and stable data transfer, making it ideal for various applications. The connectors are plated with nickel, providing excellent corrosion resistance for long-lasting functionality. The PVC jacket and triple shielding provide exceptional protection against interference, guaranteeing a seamless and reliable data transfer experience. If necessary, this cable is equipped with an AC power port this cable can also be powered from a wall outlet instead of the device.
