4XEM's 3-Port USB-C to HDMI and VGA Multi-Monitor Hub

4XEM Part- 4XMST13

Need more monitors connected but don't have the ports? 4XEM's 3-Port USB-C to HDMI and VGA Multi-Monitor Hub is a premier solution for that problem. This device offers the ability to increase your productivity by utilizing up to two separate screens in conjunction with your main device. Connect, up to, two HDMI monitors and one VGA monitor to your device to expand your work or play station to new heights. Supporting the ability to mirror and extend displays you also can adjust the displays as you see find. Such display applications can include spanning spreadsheets over monitors, panoramic viewing, and editing audio and video clips to name a few. Powered by its USB-C connection this device does not require an additional power source. Spread out your displays and working capabilities with 4XEM's multi-monitor hubs.

Problem it solves: Connect three devices to your USB-C enabled display easily with one convenient device.
