

4XEM's USB-C Triple Display Docking Station with Power Delivery (2 DP + 1HDMI)

4XEM Part- 4XUMD02

Introducing our USB-C Triple Display Docking Station - the ultimate productivity tool for professionals on the go! With 85W Power Delivery, this docking station charges your laptop while you work, ensuring that you never run out of battery.

Connect up to three displays with 2x DisplayPort 1.4 ports and 1x HDMI 2.0 port for a seamless and immersive experience. With 3x USB 3.0 Type-A ports and 1x USB 3.0 fast charging port, you can easily connect and charge multiple devices simultaneously. The RJ45 Gigabit port allows for lightning-fast internet speeds, while the SD and Micro-SD card readers provide convenient access to your files.

Designed for ultimate versatility, our docking station features a 1x USB 3.1 Type-C host connector for quick and easy connectivity. The 1x 4-Pole TRRS 3.5mm Audio Jack (Stereo/Mic Combo) allows for easy access to audio input and output.

Notes / Special Requirements

Notes

"DP-Alt Mode required from host for video output.

Uses 2 DisplayPort lanes of USB-C connection for video output.

Total video bandwidth cannot exceed host connection bandwidth.

Some graphics chipsets support only a limited number of active displays resulting in one or more of

the displays connected to the 4XUMD02 left blank - Active displays can be changed in the display settings of your operating system."
