

4XEM 2-Port VGA Switch 250 MHz

4XEM Part- 4XVGASP2504

Connect two computers to one VGA monitor using 4XEM's 2-Port VGA/SVGA Switch (4XVGASL2504). This high performing 2-Port Manual VGA/SVGA Switch supports VGA video bandwidth of 250 MHz and features a fully-shielded rugged metal case with front-panel push-button switching. An interior printed circuit board design allows for crystal clear resolutions up to 1600×1280. No AC power is required to operate.

Features:

- 2 Port VGA/SVGA Switch
- Fully-shielded rugged metal case
- Easy access front panel push-button switching
- Resolutions up to 1600×1280
- Supports VGA Video bandwidth of 250 MHz
- Does not require any AC power to operate

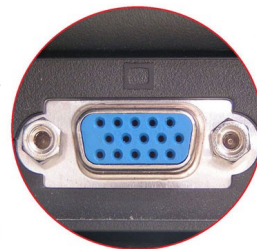

Applications:

- Home
- Connections
- Office
- Splitter

What is VGA?

A Video Graphics Array (VGA) connector is a three-row 15-pin DE-15 connector. The 15-pin VGA connector was provided on many video cards, computer monitors, laptop computers, projectors, and high definition television sets. On laptop computers or other small devices, a mini-VGA port was sometimes used in place of the full-sized VGA connector.

Many devices still include VGA connectors, although VGA generally coexisted with DVI as well as the newer and more compact HDMI and DisplayPort interface connectors.
