4XEM 4-Port VGA Splitter 350 MHz

4XEM Part- 4XVGASP3504

4XEM's 4-Port VGA Video Splitter simultaneously delivers high resolution VGA video from a single source to up to two separate monitors. With support up to 350MHz VGA video bandwidth and resolutions up to 2048×1536 @ 80Hz, this high performing splitter offers superior image quality. Monitors can be positioned up to 213ft away from the VGA video source. Simple to install and paired with one of our 4XEM standard extension cables, this durable unit can lay flat on or under your workspace. Perfect for classrooms, tradeshows, or in-store displays when you need high quality video on several monitors.

Features:

- Supports 350MHz video bandwidth
- Supports distances up to 213ft
- Supports resolutions up to 2048×1536 @ 80Hz
- Simple plug and play installation
- Compatible with VGA, SVGA and Multisync monitors
- High quality construction and high-resolution support
- Maintains signal strength for clean, sharp imaging

Applications:

- Home
- Connections
- Office
- Servers
- Networking

What is VGA?

A Video Graphics Array (VGA) connector is a three-row 15-pin DE-15 connector. The 15-pin VGA connector was provided on many video cards, computer monitors, laptop computers, projectors, and high definition television sets. On laptop computers or other small devices, a mini-VGA port was sometimes used in place of the full-sized VGA connector.

Many devices still include VGA connectors, although VGA generally coexisted with DVI as well as the newer and more compact HDMI and DisplayPort interface connectors.
