Patent-pending UVend Technology makes the high-touch surfaces of vending machines safer by quickly killing or inactivating some of the most common viruses and bacteria\*.

Disclaimer: eVending.com automated dispensing equipment with the UVend Technology Ultraviolet-C (UVC) system directs UVC light onto the keypad and delivery door surfaces when the machine is not in use, killing or inactivating bacteria, viruses and other contaminants that might otherwise be passed on to the user of the machine through these high-touch surfaces. When used properly, UVC light is a proven, safe, and effective sanitization method. For more information about the proper use and effectiveness of UVC light as a sanitization method, please visit [eVending.com/uvend-disclaimer](http://eVending.com/uvend-disclaimer).

First in First Out Loading  
Reduces Spoilage up to 30%

**Healthy Safety Monitor Equipped**

This monitor allows operators to stock dairy and cold food products.
