

MEGELIN

LED Light Therapy Mask

Face Mask

Please read this manual carefully before use, and keep it well, including the Product Warranty Card, and follow the warnings and precautions marked in the product manual.

Product instruction

1 FOREWORD

Thank you for purchasing MEGELIN products. The LED light therapy mask face mask is a new product developed by our company, only to bring the theatrical care experience to consumers in a scientific, healthy and safe way.

In order to bring you a better experience and effect, please be sure to read the product manual carefully before use.

2 DEVICE LIST

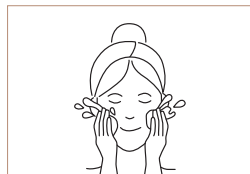

Red, yellow, blue, green, purple, white, orange, seven color light options

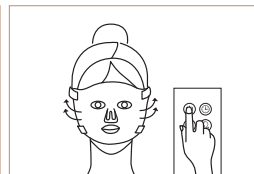

- ① Face mask ② eye mask ③ Type-C charging cable
④ Product controller ⑤ Fixed strap

*Accessories shall be subject to the physical receipt.

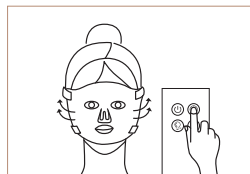

3 QUICK USE INSTRUCTIONS

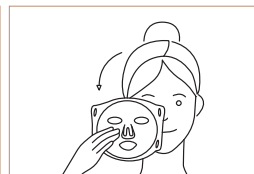

Step 1: Clean and dry your face.

Step 2: Connect the controller and adjusting strap to the face mask, wear the mask, long press the on/off button for 1.5 seconds to turn on the machine, and press the color light selection button to switch.

Step 3: The device contains three periods of 10, 15, and 20 minutes. The default time is 10 minutes. You can press the time button to switch the period.

Step 4: After the set time, the device will automatically turn off, remove the mask, and carry out follow-up skin care.

4 SAFETY GUIDELINES

If you are one of the following people, do not use this product

1. People who are pregnant, preparing for pregnancy and breastfeeding;
2. People who are light sensitive or who are taking any drugs that may cause light sensitivity;
3. People with genetic or skin diseases of the eye (such as lupus erythematosus, photosensitive eczema or albinism).

Charging instructions

- The controller contains lithium-ion polymer batteries. Do not use them during charging. (Note: Once used while charging, it will cause damage to the battery and device, and the mask will not light up and not work)

- Before the first use, please fully charge the controller. When charging, connect the USB charging cable to the controller, connect the plug, turn on the power, and start charging. (Note: In addition to controlling the switch, switching the color light and adjusting the time, the controller also has a "charging treasure" function, so only the Type-C charging cable and the controller can be connected when charging, without connecting to the mask, in order to reduce the damage to the mask parts)

- When the controller indicator flashes, the device is in the charging state; When the controller indicator lights on and stops blinking at the same time, the charging is complete.

5 LIGHT SENSITIVITY TEST

Please perform a light sensitivity test before using this mask for the first time

Step 1

Place the mask on your arm, turn on the switch and shine for 10 minutes. If you have red or itchy skin, which indicates that you may have photosensitive skin, it is recommended that you stop using it or consult a dermatologist before using it again.

Step 2

Before use, clean your face and keep it dry (without makeup) to prevent makeup that may contain light-sensitive ingredients that could interfere with your skin care effectiveness.

Step 3

After use, the skin may appear redness, which is a normal reaction of the skin, and will return to normal within 1-2 hours. If you feel burning or any other discomfort during the process, please stop using immediately.

6 INSTRUCTION FOR USE

How to use and steps

Step 1	Clean your face thoroughly and keep it dry.
Step 2	Connect the power cord of the face mask to the controller, connect the binding band to the face mask, place the face mask on the face, adjust and buckle the binding band, so that the face mask is fixed on the face, and long press the switch button for 1.5 seconds to open the face mask.
Step 3	According to the different color light, the mask has a total of red, yellow, blue, green, purple, white, orange, seven kinds of color light, you can press the light selection button to switch the color light. After the device is turned on, the default color is red light. You can switch the color light by pressing the color light selection button. Press the time select button to adjust the irradiation time, the default time is 10 minutes, 10/15/20 minutes optional.
Step 4	The mask will automatically turn off when your chosen use time arrives. After closing, remove the mask, end the irradiation, and skin care can be done according to the daily process.
Remark	It is recommended to use it 3–5 times a week for 4 consecutive weeks. Each session lasts for 10–20 minutes.
