

TOWER

SETUP INSTRUCTIONS (APPLIES TO 8FT/10FT TOWERS)

A. Vertical Tubing

The vertical tubes are multi-piece units, connected with an internal bungee cord. Push down on the button and insert into the receiving tube until the button snaps in place.

B. Corner / Angle Connectors

Connect the corner/angle connectors at both ends of each vertical tube. Match the labels, located on the ends of every piece (ex:B1:B1,B8:B8,etc.).

C. Horizontal Tube

Connect the horizontal tubes to the remaining open ends of each corner/angle connector. Match the labels, located at each end. The frame setup is complete.

1. Drape

Drape the top of the frame, starting with the open end (bottom) of the graphic.

2. Pull

Pull the graphic all the way down until taut.

3. Zip

Zip the bottom shut to maximize tension. The graphic install is complete.
