

Reading test

How do I determine my diopter strength ?

Test your vision and discover your presbyopia correction in 4 steps !

1. Print this reading test in A4 size at actual scale.
2. If you wear glasses, remove them, and stand approximately 35cm away from the sheet.
3. Read each paragraph until you experience difficulty.
4. The number corresponding to the first paragraph you can't read correctly will indicate your diopter strength.

+3

Blurred vision up close ? Difficulty reading ?
Otaaki has the solution !

+2.5

Otaaki offers lightweight and colorful reading glasses
for presbyopia.

+2
