Express Ink Printing

WHAT ARE EXPRESS INK PINS?

Developed using a proprietary process, our Express Ink lapel pins offer customers a high quality pin printed in our Vermont production facility and delivered in just days, rather than the weeks-long timeline for traditional lapel pins. Start by selecting one of our in-stock size and shapes as your template, either a circle or rectangle. Your design is then printed directly onto the metal or hard enamel base resulting in a full color representation of your design.

KEY FEATURES:

- Durable, full-color imprint
- Produced in just days
- Round or Rectangle stock shapes
- Gold or Nickel plating
