REGULATORY AND LEGAL INFORMATION
..... 33

How It Works

Headset Controls

ON/OFF

Turn on the headset :

Press and hold the Power/Volume + Button until the LED Indicator flashes blue.

*Audrey will say, "Welcome to Shokz."

Turn off the headset :

Press and hold the Power/Volume + Button until the LED Indicator flashes red.

*Audrey will say, "power off."

Pairing to Mobile Device

1. Start with your headset turned off.
2. Press and hold the Volume + Button until the LED Indicator flashes red and blue alternately.

3. Open your device's Bluetooth settings and select "OpenComm by Shokz." Audrey will say, "connected."

Pairing to PC

1. Start with your headset turned on.
2. Plug the included USB adapter into a USB port on your PC.
3. Connection is established when Audrey says "Connected" or beeps, and the LED Indicator on the USB adapter is solid blue.

Configure

*To play music or take calls on the headset, please ensure the "Shokz Loop100" is both identified as the default input and output devices in your operating system's audio settings.

NFC Pairing

- OFF** Operate controls with headset powered off

1. Power on your headset (press and hold Power/Volume+ until LED Indicator flashes blue).

2. Unlock your phone and turn on NFC pairing (Refer to your phone's user guide if needed).
3. Position the headset's NFC logo near the NFC detection area of your phone until the device shows pairing is completed. The headset's LED Indicator will flash blue once when pairing is successful.

How to Wear

Pick up the headset, bring them behind the back of the base of your neck, position the earhooks on your ears.

*Position the noise-canceling microphone close to your mouth.

*Wearing your headset the wrong way could cause discomfort. The transducers should rest in front of your ears.

Volume

Operate volume controls
while audio is playing

How to change volume:

While your audio is playing, adjust headset volume by pushing either the Volume + or Volume - buttons.

*A "beep" will sound when the volume is at its max.

*Listening with headset at high volume may affect your hearing and the audio will be distorted.

Mute the Microphone

During a call

To Turn Mute On

Press and hold the Volume + and Volume - buttons while on a call until Audrey says “mute on.”

To Turn Mute Off

Press and hold the Volume + and Volume - buttons while the microphone is muted until Audrey says “mute off.”

Previous song	Triple-click while music is playing
Switch language	Double-click while pairing
Answer call	Click once
End call	Click once during a call
Answer call waiting and end current call	Press and hold for 2 seconds when receiving a second call
Ignore a call	Press and hold for 2 seconds during an incoming call
Activate voice assistant	Press and hold for 2 seconds when device is on standby
Redial last number	Double-click on standby

*Only applicable for phone calls, not online calls

Multifunction Button on Adapter

Pair to a new headset

Press and hold for 2 seconds

LED : Flashes blue rapidly

Reconnect to the last connected headset

Click once

LED : Flashes blue every second

Reset the adapter

Press and hold for 2 seconds, then double-click

LED : Flashes blue then turns solid blue for 5 seconds, then flashes blue rapidly

Check Battery Status

Operate controls while
audio is not playing

How to check battery status :

Click the Volume + or Volume - button while music is paused,
Audrey will tell you the battery status:

* "Battery high/Battery medium/Battery low/Charge me"

Extra Features

EQ Modes

Standard Mode :

Standard listening mode with your ears open.

Earplug Mode :

Use earplugs with headset in noisy environments where it is safe to block out ambient noise, such as on a train or in a factory plant.

Switching EQ Modes

Operate controls while music is playing

How to switch EQ mode :

Press and hold both buttons (Power/Volume + Button and Volume - Button) while music is playing until you hear a beep.

*Audrey will say, "EQ changed."

Restore Factory Settings

OFF Operate controls with
headset powered off

1. Start with your headset powered off.
2. Press and hold Volume + until Audrey says "pairing" and the LED indicator flashes red and blue alternately.

3. Press and hold the multifunction button, Volume – button and Volume + button until you hear two beeps and feel the vibration.

4. Turn your headset off. Your headset is now reset and can be re-paired to your device.

Changing Languages

Your headset has four built-in languages:
Chinese, English, Japanese and Korean.

OFF Follow the instruction when
headset powered off

1. Start with your headset powered off.
2. Press and hold Volume + until Audrey says "pairing" and the LED indicator flashes red and blue alternately.

3. Double-press the multifunction button. Languages have been switched when you hear the corresponding language.

Care and Maintenance

Charging Tips

- OFF** The headset will automatically shut down when charging

Magnetic Charging Cable

Charging

Charging Completed

When the headset is at low battery, there will be a “charge me” prompt and the red light will flash intermittently. Use the corresponding magnetic charging cable for charging.

The LED indicator will turn red during the charging process and the headset will automatically turn off. The LED indicator will turn from red to blue when charging is complete.

Moisture Detection Alert

How it Works:

These headset can detect liquid such as water, sweat, or rain. If the headset is plugged into the charger while wet, the LED indicator will flash red and blue. The headset will then emit a beep. If this happens, remove the charging cable, dry them completely, then proceed with charging.

Storage and Maintenance

OpenComm

- Store the headset in a cool, dry place. The working temperature should be 0~45°C (32~113°F). Working in a cold/hot environment, a highly humid area, or an extremely low air pressure may reduce the battery life.
- Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
- Keeping the charging port dry before connecting to the charger will reduce the risk of damage.
- This headset is water-resistant, but is not waterproof. Please do not submerge the headset in water.
- Clean the headset with a soft dry cloth.
- Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.
- After storage for a long period, please charge the headset before using again.

Note

Design and specification are subject to change without notice. For the most up-to-date product information, please visit <https://shokz.com>.

Warning

To avoid the risk of explosion, fire, or leakage from toxic chemicals, please do not disassemble the product or replace, deform, or mutilate the battery.

any type of vehicle. Please check and comply with the traffic rules or relevant laws and regulations in your area or consult your local regulatory authority.

Although rare, some users may experience skin allergies or skin sensitivity when coming into long-term contact with the product's outer materials.

To avoid the risk of an allergic reaction, please do not wear the product if you are experiencing skin injuries or irritations on or around the neck, ears, and/or head.

If you experience any redness of the skin, swelling, or itchiness while wearing the product, discontinue use of the product immediately and consult a physician.

Only charge with the magnetic charging cable approved by the manufacturer. Other charging cables may not meet applicable safety standards, and charging with such cables could pose a risk of injury to the users or damage to the device. Use this product only with an agency-approved power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).

Shokz Loop100 USB-A Bluetooth® Adapter

- Store the product in a cool, dry place. The working and storage temperature should be 0°C–55°C (32°F–131°F).
- Never allow children and pets to play with the product – small parts may be a choking hazard. If accidental ingestion happens, seek immediate medical attention.
- Keep the product away from heat sources, direct sunlight, combustible gas, or other liquids.
- Do not disassemble the product.
- Unplug, discontinue use, and contact Shokz if the product overheats or has a damaged outer casing or plug.

Note

Design and specification are subject to change without notice. For the most up-to-date product information, please visit <https://shokz.com>.

Warranty

Your headset are covered by a warranty.

Visit our website at <https://shokz.com/pages/warranty-landing> for details of the limited warranty.

*Failure to register will not affect your limited warranty rights.

Regulatory and Legal Information

OpenComm

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Responsible party (contact for FCC matters only):

AfterShokz LLC.

3200 Gracie Kiltz Lane, Suite 400 Austin, TX 78758, The USA.

www.shokz.com

Industry Canada

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s): Operation is subject to the following Two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

IC SAR statement

This equipment complies with ISED radiation exposure limits set forth This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet équipement est conforme aux limites d'exposition aux rayonnements de l'ised pour les environnements non contrôlés. L'utilisateur final doit se conformer à des instructions d'exploitation spécifiques afin de respecter la conformité à l'exposition aux radiofréquences. Cet émetteur ne doit pas être au même endroit ni fonctionner avec une autre antenne ou

un autre émetteur. L'équipement portatif doit être conçu de manière à satisfaire aux exigences d'exposition aux ondes radio spécifiées dans l'ised. Ces exigences fixent une limite moyenne de SAR de 1,6 W / kg pour un gramme de tissu. La valeur SAR la plus élevée rapportée conformément à la présente norme, lorsqu'elle est portée correctement sur la tête pendant la certification du produit.

The portable device is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the head.

CE Declaration of Conformity

Shokz Holding Limited hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and all other applicable EU Directive requirements. The complete declaration of conformity can be found at: <https://shokz.com/pages/policies>. Shokz's EU representative is AfterShokz Euro B.V., Schipholweg 103,2316XC Leiden, The Netherlands. Maximum transmit power is below regulatory limits such that SAR testing is not necessary and exempt per applicable regulations.

Frequency Range	Max. Transmit Power
2400-2483.5MHz	8dBm(EIRP)

UK Declaration of Conformity

Shokz Holding Limited hereby declares that this product is in compliance with the essential requirements and all other applicable United Kingdom's regulations. The complete

declaration of conformity can be found at:
