

lula<sup>®</sup>

M E N A

————— We are contributing to the preservation of  
traditional techniques through our designs. —————

Lula designs under 5 principles:

**Eco-friendly:** Lula believes in conscious design with a high respect for the human being and the environment. All materials she uses do not harm the environment since they are natural, recycled or repurposed. This principle is also applied to our production processes.

**Handmade :** for Lula is very important to contribute to the rescue and preservation of traditional techniques, like indigo dyeing and hand weaving, among others.

**Women Empowerment:** Lula decided to work with women, since she became a mom. She is convinced that when you change the life of a woman, it has a multiplying factor and it immediately and automatically changes the lives of their kids and their communities.

**Fair Trade:** Lula Mena practices fair trade conditions, because she believes that these women should not just survive, but improve their lives with fair wages. Lula ensures that all the people that work with her, have optimal working conditions and that they are paid fair wages, even 4 times more than what Salvadorans earn in the rural areas.

**Innovation:** through innovation in design, Lula contributes to preserve traditional techniques, offering contemporary products that fit in today market's demand.
