YOUR GUIDE TO ROASTING

AMAZING COFFEE • WITHOUT CAFFEINE

THINK ABOUT

External Color - it is not the only guide to determine when your roast is finished.

WATCH FOR

Texture, aroma, and color shift. When decaf coffee is roasting, it will expand, show its veins, and expand some more.

TAKE NOTE

Recommended charge temperature is 375 - 400°F. Final roast time may be shorter. Grind the coffee. Decaf and regular grounds should be the same color.

SAMPLE ROASTING TARGETS

Roast time = 7:30 - 8:30 minutes. Agtron Color Reading - 63*
