

NANOTECHNOLOGY & GLUTATHIONE

SWISH30

Glutathione

"THE MOST POWERFUL
ANTIOXIDANT
YOU HAVE NEVER HEARD OF."

- DR. OZ

Glutathione is the protector and detoxifier of the cell. It's the key to the life, health, performance, protection and longevity of every human cell.

Improved health, enhanced performance, quicker recovery, slowed aging, increased energy and extended life span are just a few of the benefits associated with high glutathione levels.

Your glutathione levels decrease the longer you are alive. Continuous attacks on your cells by the invasion of toxins, heavy metals, and exposure to radiation and free radicals cause damage and expedite the aging process. Glutathione levels are also reduced by any trauma the cells encounter - such as injuries, infections or diseases.

Higher glutathione levels are associated with an extensive number of health, performance, and anti-aging benefits. Most major diseases are associated with oxidative stress and low glutathione levels. As a result, studies have shown that healthy people have higher levels of glutathione.

People with higher glutathione levels may experience:

- Decreased inflammation
- Reduced joint discomfort
- Strengthened immune system
- Increased energy
- Enhanced stamina and endurance
- Improved exercise recovery times
- Greater mental clarity and focus
- Improved sleep
- Enhanced quality and length of life

Although glutathione may be unheard of in the general public, it is well known to medical and scientific community. In fact, there are twice as many scientific studies on glutathione recorded in PubMed, the online medical science library of the U.S. Government, as there are on Vitamin C. Throughout the past two decades there have been tens of thousands of studies on glutathione and its association to health and longevity.

"IT'S ONE OF THE KEYS TO FIGHTING OFF THE DISEASES YOU FEAR THE MOST. IT'S CALLED GLUTATHIONE. NOW WRITE IT DOWN BECAUSE IT'S CRITICALLY IMPORTANT".

DR. MEHMET OZ
THE DR. OZ SHOW

"IF YOU'RE CHRONICALLY RUN DOWN; IF YOU'RE CHRONICALLY FATIGUED; IF YOUR BODY JUST ISN'T FIRING ON ALL CYLINDERS, LOW GLUTATHIONE MAY BE PART OF IT, BOTH CAUSE AND EFFECT."

DR. DAVID KATZ
DIRECTOR OF YALE
UNIVERSITY'S PREVENTION
RESEARCH CENTER

A Higher Glutathione Level:

- Improves Immune Response
- Reduces Physical and Mental Fatigue
- Enhances Mental and Physical Performance.
- Accelerates Physical and Mental Recovery from Exercise
- Increases Longevity
- Reduces Oxidative Stress
- Reduces Intercellular Inflammation
- Combats Accelerated Aging
- Delays the Onset of Diseases of Aging
- Removes Chemical toxins from Cells
- Critical for Oxygen Transfer

Hydrastat™ Nanotechnology

"AN INNOVATIVE TECHNIQUE
IN MANIPULATING THE
NATURAL PROPERTIES OF
ULTRA-PURE WATER TO PROVIDE
UNIQUE WATER- CLUSTER
PROTECTION OF NANO-SIZED
PARTICLES DESIGNED TO
INCREASE THEIR
BIOAVAILABILITY AND
TRANSFERENCE INTO THE
ORGANIC CELL".

-BERT WONNACOTT,

Human supplement manufacturers have continually sought better methods to provide customers with the most effective nutritional impact with their products. Currently, many manufacturers provide excess nutritional raw ingredient volumes knowing that only a fraction of the ingredient will actually be absorbed.

The mentality has been “even if a great deal of the supplement is ‘flushed’, we can offset that by increasing the raw material volume.”

The interface between a human supplement and the body takes place on the surface of the nutritional particle where most chemical and biological reactions occur. The ideal manufacturer’s concept is to increase the surface area without increasing wasted volume. The only way to effectively undertake this is to adjust the size of the nutritional particle.

We engineer our product with our ultrapure water and the basic nutrients in the solution are down-sized to particles below 100 nanometers, and some as small as 10 nm or below. This adds to the bioavailability dramatically.

We have done comparatives as is possible, but the surface area of a particle that is the size in most supplements (2 microns or 2,000 nanometers) has a surface area of approximately 12.57 million square nanometers. Our particles are generally between 80 nm and less than 10 nm depending on the ingredient. The total surface area of equal volumes of our ingredients are anywhere from 25 to 200 times greater!

What is a Zeta Test?

Zeta tests determine the effective surface charge of nanoparticles in a solution. These tests give us insight into the characteristics of solutions, and help us improve our formulas. Review our Zeta Potential Tests below:

Sample Details

Sample Name: NS060721-2 2

SOP Name: **NutriSwish / Swish30**

General Notes: Average result created from record number(s): 627 626

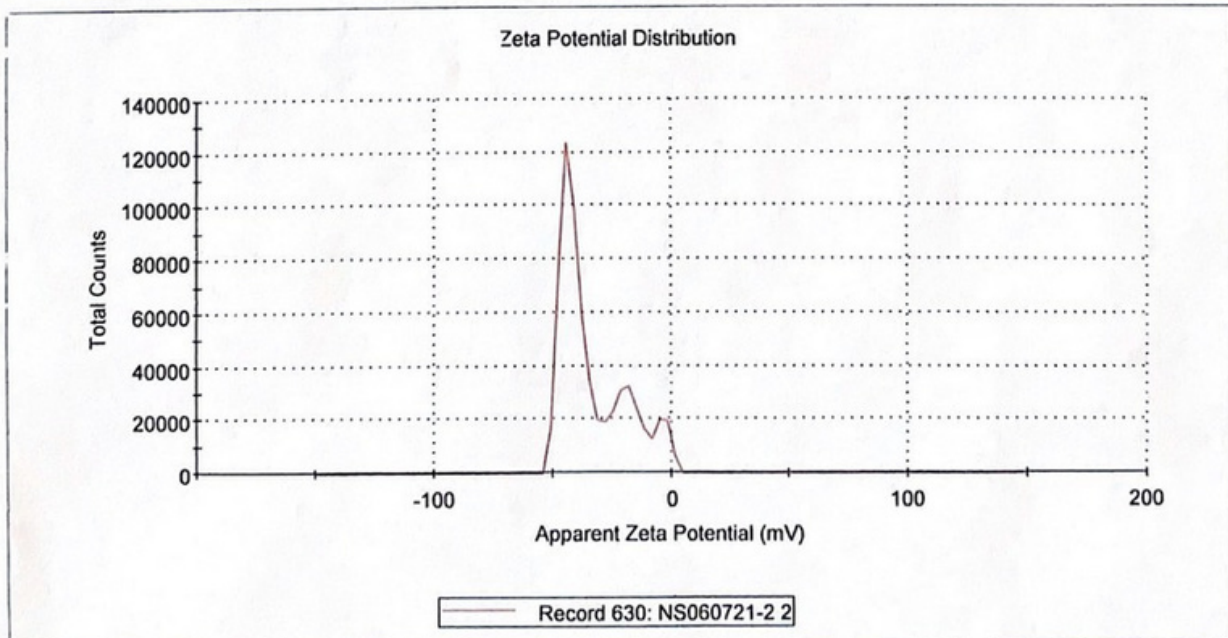

File Name: Installation tests.dts	Dispersant Name: Water
Record Number: 630	Dispersant RI: 1.330
Date and Time: Wednesday, June 9, 2021 3:10:2...	Viscosity (cP): 0.8872
	Dispersant Dielectric Constant: 78.5

System

Temperature (°C): 25.0	Zeta Runs: 20
Count Rate (kcps): 91.1	Measurement Position (mm): 2.00
Cell Description: Clear disposable zeta cell	Attenuator: 11

Results

	Mean (mV)	Area (%)	St Dev (mV)
Zeta Potential (mV): -32.5	Peak 1: -41.3	75.8	5.49
Zeta Deviation (mV): 13.3	Peak 2: -16.0	19.8	4.29
Conductivity (mS/cm): 0.566	Peak 3: -0.605	4.4	1.41
Result quality : Good			

Swish30 Ingredients

Glutathione is the body's master antioxidant that impacts nearly every function in your body. It detoxifies your body's cells and it also recycles itself to increase the effectiveness of other antioxidants (Vitamins C, D, etc).

Curcumin acts as an antioxidant, fortifies mental health and clarity, offers joint support, and may improve heart health.

L-Cysteine is an anti-inflammatory that boosts heart health, supports the immune system, and boosts athletic performance.

Ultra Pure Water is crucial to our nanotechnology formulation. We remove all impurities and the non dissociated colloidal matter, gas and organic matter in the water to a very low level. Pure water is measured by Megohms of resistivity to electrical current. The use of ultra-pure water in industry includes pure water as a rinse bath for computer chip manufacturing. The theoretical maximum is 18.2 megohm. Our use includes ultra-pure water with a "cleanliness" of over 17.5 megohm.

Gone are the days of waiting months to see results from supplementation! We have set out to disrupt the health industry through rapid absorption of these four key ingredients through our HydraStat™ technology.

Third Party Testing

we believe in delivering a product of the highest quality. We have submitted Swish30 for third-party testing.

Review the results for our third-party microbiology tests, which test for contamination of harmful microorganisms, in the documents below.

CTLA ID: 66568
 Date Received: 1/23/2023
 Sample Name: Nutriswish / Swish30

Conclusion

The screenshot shows the PubMed.gov search interface. The search term 'glutathione' is entered in the search bar. Below the search bar are links for 'Advanced', 'Create alert', and 'Create RSS'. There are buttons for 'Save', 'Email', and 'Send to'. The search results are sorted by 'Best match'. A red circle highlights the text '174,076 results'. Below this, there is a section for 'MY NCBI FILTERS' and 'RESULTS BY YEAR' with a bar chart. The first result is titled 'Glutathione: overview of its protective roles, measurement, and clinical applications' by Forman HJ, Zhang H, and Rinna A. The citation is 'Mol Aspects Med. 2009 Feb-Apr;30(1-2):1-12. doi: 10.1016/j.mam.2009.01.001. PMID: 18796312 Free PMC article. Review.' There are also 'Cite' and 'Share' options for the result.

Glutathione is the master antioxidant of the body, and has been linked with improved health, enhanced performance, quicker recovery, slowed aging, increased energy and extended life span.

As you age, your glutathione levels decrease. Most major diseases are associated with oxidative stress and low glutathione levels.

Glutathione is fragile and difficult to absorb, so its potential has been untapped by the daily supplement industry, until now. At Swish30, we use Hydrastat™ Nanotechnology to create a daily supplement that your body can absorb.

Hydrastat™ Nanotechnology manipulates the natural properties of ultra-pure water to provide unique water cluster protection of nano-sized particles designed to increase their bioavailability and transference into the organic cell.

Try Swish30 today and start feeling like a new you.
