

UNDER THE SEA

printables

Supplies Needed:

- glue
- scissors
- dot stickers
- tissue paper squares in multiple colors
- colored markers or crayons

FISH TRACING

Use a marker or crayon to trace the dotted lines. To make this reusable, you can laminate or cover with clear packaging tape and use a dry erase marker.

DOT STICKER STARFISH

Use dot stickers to cover the grey circles on the printable. To make it harder, write letters, numbers, or shapes on each grey circle and the same letters, numbers, or shapes on each colored dot sticker. Let your child match the dot stickers to the matching grey circles.

CUTTING STRIPS

Use scissors to cut along the dotted lines until reaching the picture. Create your own cutting strip with the picture that doesn't have dotted lines beneath it.

TISSUE PAPER SHELL

Scrunch and glue small pieces of tissue paper onto the printable. Alternatively, you can just glue flat pieces of tissue paper onto the printable.

UNDER THE SEA I-SPY

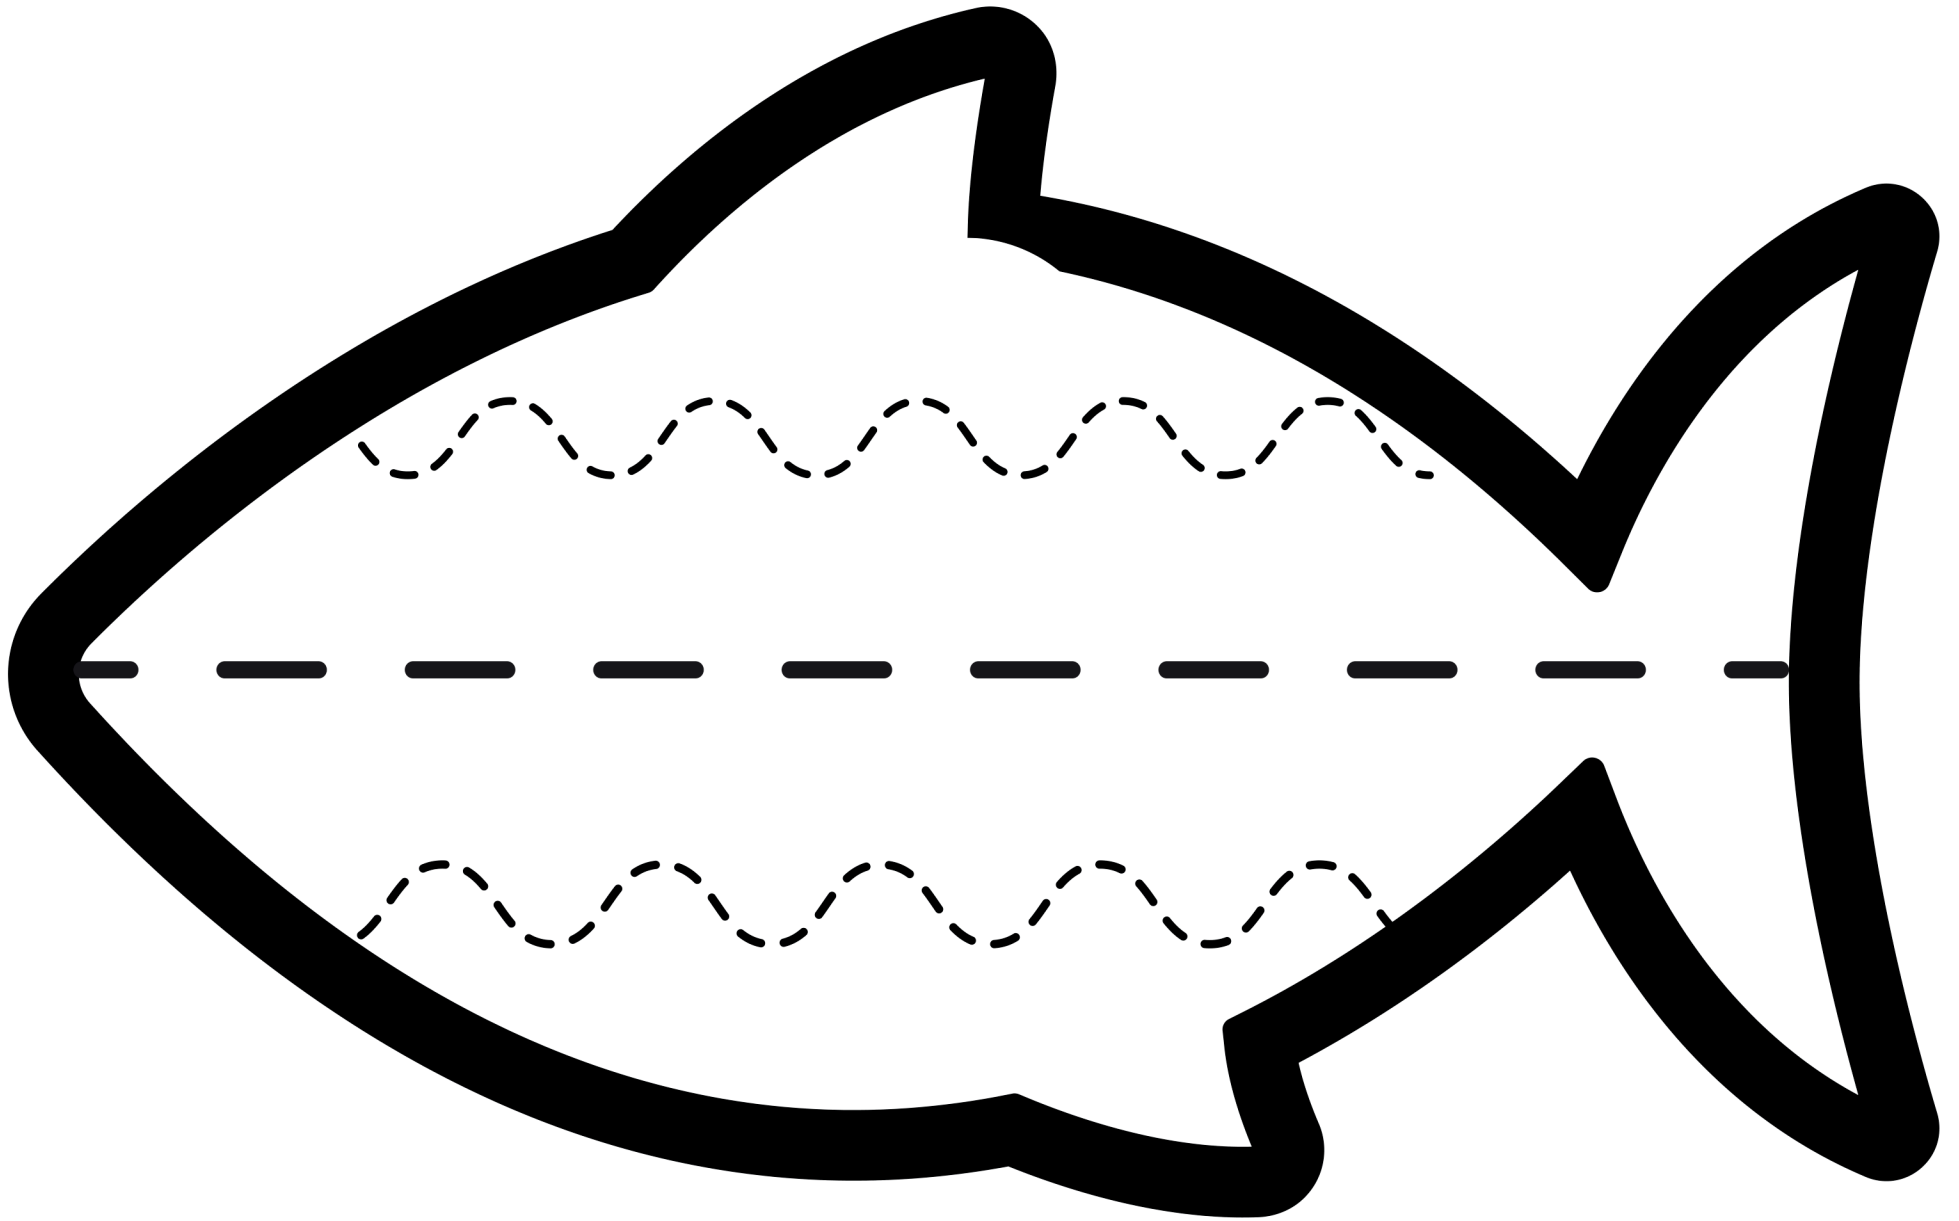

Use colored crayons or markers to complete the I-spy printable.

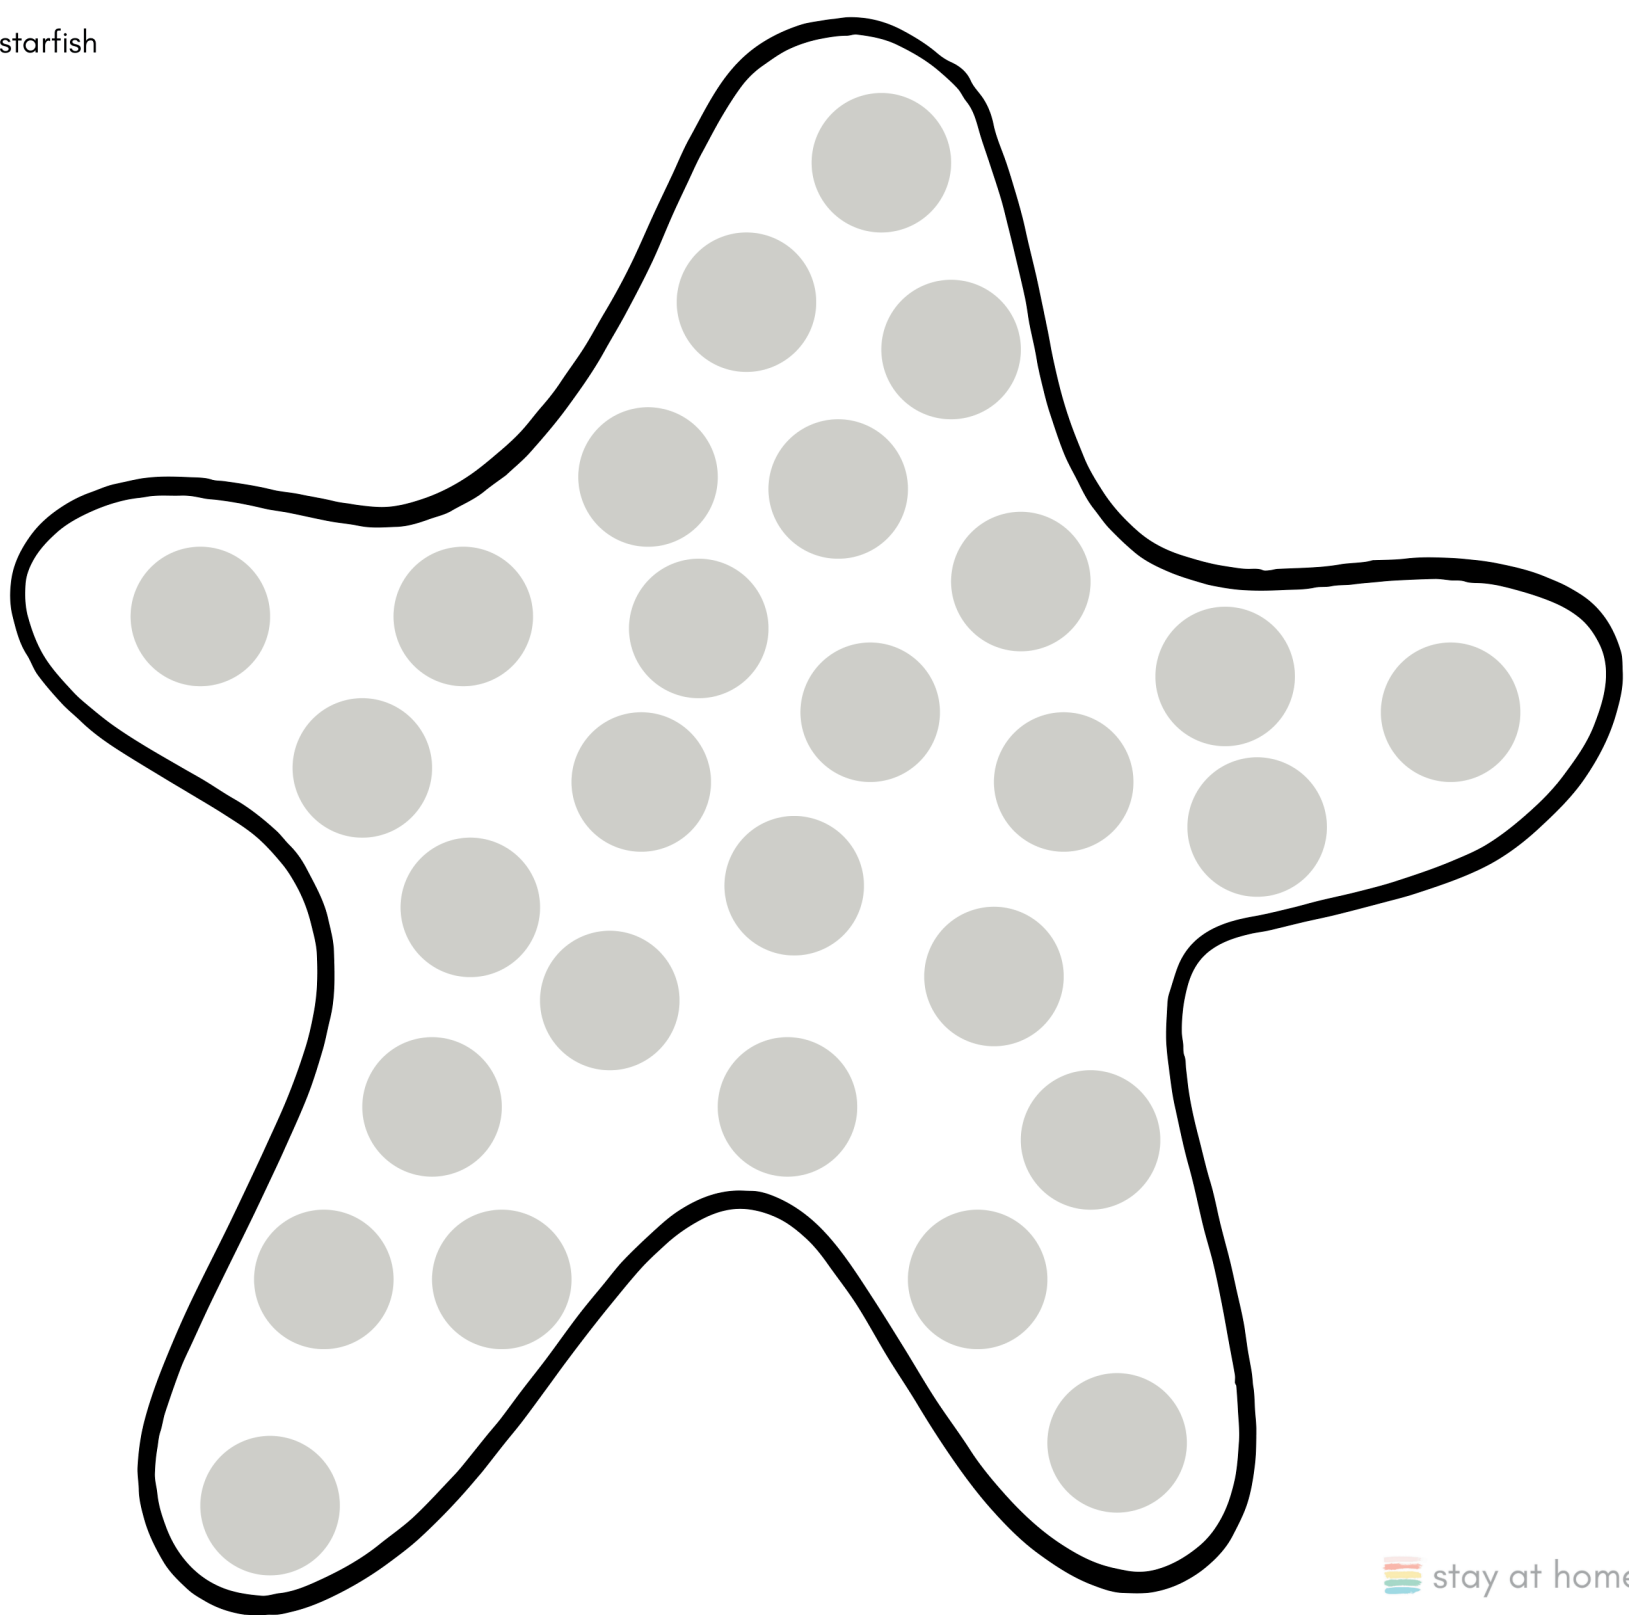

2 COLORING PAGES

Use colored crayons or markers to color the coloring pages.
