- Solid rubber wheels - puncture proof
- Full range of spare parts & service kits available!

Product Description

The P17 petrol has become the largest selling model due to its performance of 350 litres of free air. This is one of the largest petrol models you can buy with a GX200 Genuine Honda engine, built for our tough environmental conditions that also meets the Australian emissions standards.

Again it is super quiet and efficient for the amount of air you receive. It will run die grinders, most common air Sanders and 1/2" impact guns. This unit is truly manufactured for the professional.

Fitted with the Peerless N75 Pump, full cast iron, slow revving at 1061RPM it is perfect for the Australian conditions. It also features an outstanding 5 year pump warranty along with a conrader idle control valve system (made in America) to cut it in and out with optimal performance when the air demand is required.

Smart start filter also fitted (American made) along with Stainless steel pressure gauge.

Electric start engine does come with battery leads but no provisions for battery. We can manufacture to your design plus there are other standard designs for each model.

95KG

PUMP UP TIME TO 100PSI:
1.05 - 1.10 MIN

1100MM X 450MM X 820MM

ELECTRIC / KEY START:

P17 Petrol Twin Tank 350 LPM - Free Air Delivery

This slow revving Honda Petrol unit is designed for farm applications. The twin tank model is designed for better portability and stability in the back of vehicles. It's low centre of gravity ensures stability in the back of utilities and on uneven ground. The handle is also removable making it a very compact unit when needed.

PUMP UP TIME TO 100PSI:
0.40 - 0.45 MIN

1130MM X 550MM X 700MM

Air Tools

Able to run;

- Low & high pressure spray guns
- Car tyre inflation gun
- Stapling / fitting gun
- Framing nail / Grease gun
- Chalking gun / Riveter gun
- Screw driver
- 1/2" Ratchet gun
- 1/2" Impact gun
- Air duster
- 4" Angle grinder
- 6" Orbital sander
- Air drill

- Sand blasting gun
- Air hammer
- Hi torque 1/2" Impact gun
- 1/4" Die grinder
- Plasma Cutter
- Air Gauging Tool

P17 Petrol Ute Mate 350 LPM - Free Air Delivery

The Peerless "Ute Mate" Honda powered compressor is the perfect answer to your utility vehicle needs. The model features huge power all contained in a modestly sized roll cage in order to keep your work horse in top shape, no matter the conditions!

PUMP UP TIME TO 100PSI:
0.40 - 0.45 MIN

570MM X 1000MM X 570MM

P17 Petrol 2" Tube Tank 350 LPM - Free Air Delivery

With the performance of the 2" tube tank there is no down time on waiting for a receiver to fill, just instant pressure. If you lose pressure just take your finger off the trigger and then you're back to full pressure again in less than 2 seconds. Being such a unique design, this frees up valuable space on or in the service truck/van which can help with any space or weight issues you may currently have.

PUMP UP TIME TO 100PSI:
-

870MM X 410MM X 530MM

P17 Petrol Under & Over 350 LPM - Free Air Delivery

The under & over model is becoming extremely popular for saving space in the back of a ute or trailer. The greatest advantage of these and the tube models is their quick recovery time within 6 seconds you are back to full pressure and there is not much sense in pumping up a large air receiver before you pump up your tyres.

PUMP UP TIME TO 100PSI:
-

640MM X 385MM X 980MM
