- Compressed air to AS4637-2006 standard (Free Air Delivery)
- Solid belt guard
- Solid rubber wheels - puncture proof

105KG

PUMP UP TIME TO 100PSI:
1.25 - 1.30 MIN

1250MM X 450MM X 820MM

ELECTRIC / KEY START:
OPTIONAL

WARRANTY
 5 YEAR PUMP / 3 YEAR HONDA

Product Description

The PHP15 is a Petrol powered high pressure compressor capable of running up to 175PSI. These machines are fantastic for tyre inflation i.e. truck tyres or applications where large volumes of air at high pressure is required.

The advantages of a two stage compressor is that you do not lose volume of air at higher pressure. The air temperature is some 40% cooler than the standard type of air compressor therefore producing less condensation. Pair this with the Honda GX200 petrol motor this

unit is offering tremendous amounts of power and performance. We are that confident in this compressors performance and durability that it is backed with a massive 5 Year pump warranty and 3 Year Honda warranty.

Dividing a compressors cost by it's warranty is a guaranteed way to give you an indication of it's true cost!

Electric start engine does come with battery leads but no provisions for battery.

PHP15 Petrol Twin Tank 320 LPM - Free Air Delivery

This slow revving Honda Petrol unit is designed for farm applications. The twin tank model is designed for better portability and stability in the back of vehicles. It's low centre of gravity ensures stability in the back of utilities and on uneven ground. The handle is also removable making it a very compact unit when needed.

PUMP UP TIME TO 100PSI:
0.45 - 0.50 MIN

1200MM X 550MM X 710MM

Air Tools

Able to run;

- Low & high pressure spray guns

- Plasma Cutter

PHP15 Petrol Ute Mate 320 LPM - Free Air Delivery

The Peerless "Ute Mate" Honda powered compressor is the perfect answer to your utility vehicle needs. The model features huge power all contained in a modestly sized roll cage in order to keep your work horse in top shape, no matter the conditions!

PUMP UP TIME TO 100PSI:
0.55 - 1.00 MIN

570MM X 1000MM X 570MM

PHP15 Petrol 2" Tube Tank 320 LPM - Free Air Delivery

Peerless' unique design 2" Tube Tank compressor is far easier to transport in your vehicle due to its low centre of gravity. It takes up a minimal amount of space while still offering all the features of a conventional compressor. With the performance of the 2" tube tank there is no down time on waiting for a receiver to fill, just instant pressure.

Electric start optional extra.

PUMP UP TIME TO 100PSI:
-

1100MM X 400MM X 550MM

PHP15 Petrol Under & Over 320 LPM - Free Air Delivery

The under & over model is becoming extremely popular for saving space in the back of a ute or trailer. The greatest advantage of these and the tube models is their quick recovery time within 6 seconds you are back to full pressure and there is not much sense in pumping up a large air receiver before you pump up your tyres.

PUMP UP TIME TO 100PSI:
-

700MM X 400MM X 1000MM
