158KG

PUMP UP TIME TO 100PSI:
0.55 - 1.00 MIN

1300MM X 450MM X 910MM

ELECTRIC / KEY START:
OPTIONAL

WARRANTY
1 YEAR PUMP / 3 YEAR HONDA

Product Description

The PHP30 is a suitable machine for post hole driving, we recommend this unit as a minimum for the contractor. This compressor features a two stage high pressure pump meaning this compressor will pump up truck tyres with ease, operating at 150PSI+.

This is a great size machine if you're not looking for anything too big but not too small where it's not going to perform the jobs you need.

Built on our 110L Fat boy tank you have the convenience of pallet feet. This allows you to mount it to your ute or trailer when needed and can also be used secondary as a shed / workshop compressor.

Electric start model pictured above.

Electric start engine does come with battery leads but no provisions for battery.
