### Product Description

The PHP35D is a three cylinder, slow revving, two stage cast iron compressor capable of 175PSI and is a true and trusted machine in the marketplace with a great reputation for its reliability and performance.

As with all our diesel compressors it has been build with the highest quality componentry and attention to detail. The anti-vibration top plate is a great feature reducing vibrations by up to 80% increasing the life span of your investment. This

also makes a huge difference when mounted in a utility vehicle.

We recommend this unit for;

- Mining Sector
- Contractors
- Farming

Electric start engine does not come with battery or provisions for battery.

**Diesel lift pump model pictured above.**

- Sand blasting gun
- Air hammer
- Hi torque 1/2" Impact gun
- Hi torque 3/4" Impact gun
- 1/4" Die grinder
- Plasma Cutter
- Air Gauging Tool
- Post Hole Driver

### Diesel Lift Pump

As an alternative to the conventional fuel tank on the motor we can fit any Yanmar Diesel compressor with a Diesel Lift Pump as an alternative. This is a great feature, especially if you are installing the unit on a service vehicle.

- Connect to existing vehicle fuel line
- Saves the need to carry extra fuel
- Save weight
- Save space
