Product Description

The PV25 is a V cast iron single stage air compressor. It gives a massive 545 litre of free air. It has a maximum operating pressure of 145PSI and out performs equivalent models on the market from 50 - 110 litres of free air. This model is one of the most popular three phase models on the market and is ideal for a 2-3 man workshop. The PV25 models is one of our most popular models whether it be in three phase, petrol or diesel powered due to its huge volume of air. Despite being a single stage pump the PV25 can operate truck tyre inflation and 3/4" impact guns.
