

Peerless Retractable Hose Reels

Peerless' Industrial Metal Retractable Air Hoses have been upgraded to a new super-heavy-duty design. The mounting bracket is thickened right through to the retracting springs making it tough and durable.

These hose reels are perfect for service vehicles, factories and workshops. Built with a solid steel construction and powder coated housing they are robust and durable. The air hose is PVC coated in a rubber exterior to provide an ultra-flexible, UV resistant and anti-crack hose. If anything does happen to the hose you can also just retract it all the way out and fit another – this isn't a throw away item!

A wide range of different lengths and diameters of hoses to suit your requirements are available.
