Chicklade Bottom Farm

LOCATION:

Salisbury, Wiltshire

MATERIAL & PROFILE:

125mm Half Round Cast Aluminium & 76mm Round Eared Downpipes

FINISH:

Polyester Powder Coated

JOB SPECIFIC DETAILS & SCOPE OF WORKS

This was a renovation of an existing 19th century farm house; this beautiful building is situated in a prominent conservation area so the right product was essential; the beautiful heritage Cast Aluminium gutters & downpipes finished in RAL9017 Black to suit this traditional property at it's very best.

A reputable installer was sourced to work with the client in respect of scheduling the list of materials and agreeing suitable 'installation' dates. We work with a number of reputable and long standing installation businesses that understand the needs when fixing a metal rainwater system whether that be cast iron, aluminium or steel.
