ABOUT US

SUNHAN 尚航科技

ABOUT US

SUNHAN has been committed to the packaging system, including R&D, manufacturing, and sales since 2014. It is a domestic professional company engaged in the food and daily chemical industries. It is a high-tech and modern enterprise with a number of national patent certificates.

The company's plant is about 6,800. It mainly develops and produces a series of packaging equipment such as filling machines, capping machines, labeling machines, coding machines, sealing machines, etc., to provide customers with one-stop supply and technical solutions. At present, the products have been exported to more than 100 countries and regions around the world, and are well-recognized by domestic and foreign customers.

HISTORY

SUNHAN 尚航科技

广东尚
GUANGDONG

Leo set up SUNHAN with 3 partners at home.

2014

The office expanded to 256m² with a staff of 10.

2017

The office expanded to 1600m² with a staff of 25.

2019

Leo moved to a new office of 128m² with 4 members.

2016

The company was booming. Leo set up a subsidiary and has 16 staff. The area of SUNHAN is 1200m².

2018

The staff leaped to over 60. The area of the warehouse increased by 1300m².

2020

A new headquarter was founded with a separate office area and warehouse. The company has a strong workforce of 82.

2021

The company operates 3 subsidiaries with a total area of over 6800 sqm and a staff of 95. It has earned an ISO9001 certificate, reaching the international quality and management standard.

2022

Now SUNHAN is aiming to become one of China's high-tech enterprises and a model enterprise in the packaging industry.

SUNHAN

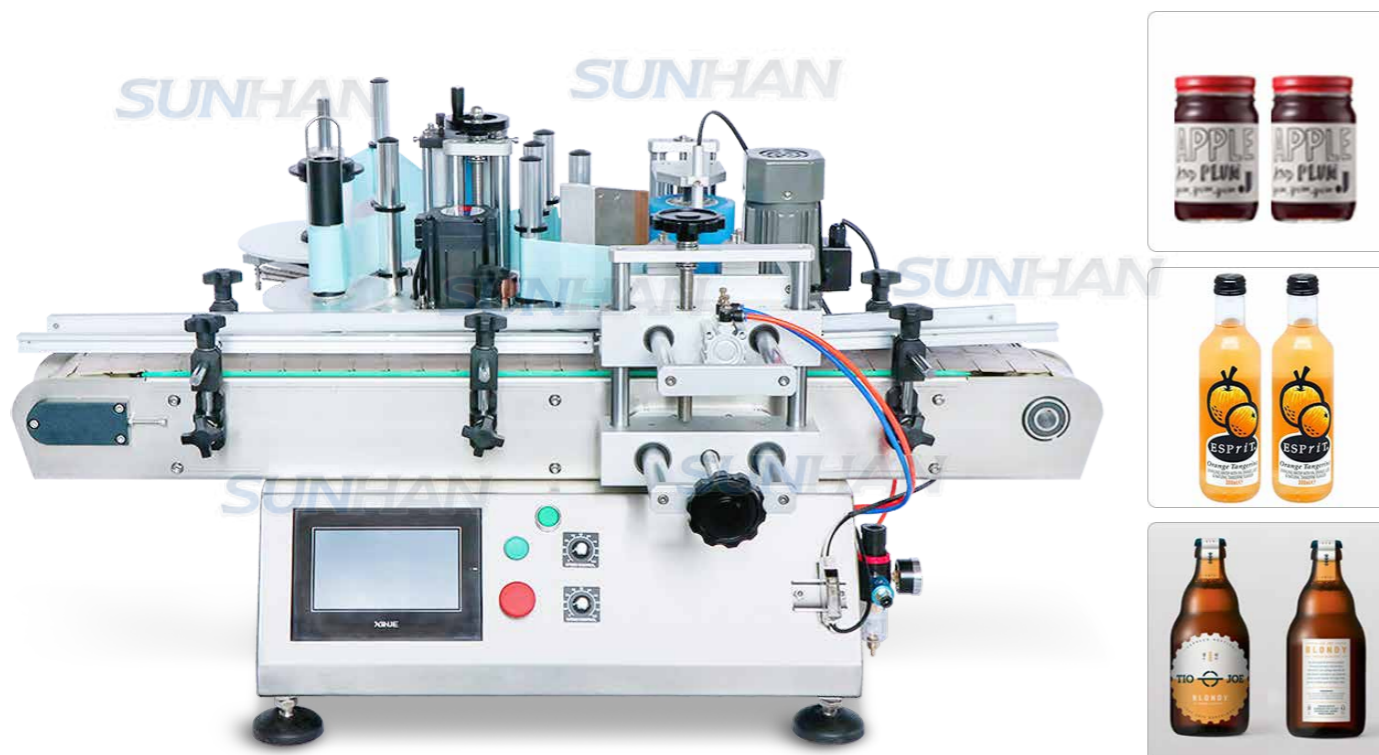

Desktop Positioning And Labeling Machine

This machine is suitable for single side/double sides/full wrap labeling on round bottles. Designed into desktop type, it can run automatically. The machine can be widely used in pharmaceutical, beverage, chemical, daily chemical, cosmetic industries.

1. Made in desktop design, it can save working space.
2. It can be equipped with date coder, which can print date or batch on labels.
3. It can work with filling and capping machine, realizing automated production.

Machine model	SH-TB500
Voltage	220V-50HZ/110V-60HZ
Machine Power	500W
Labeling Speed	About 20-50bottles/min(dependent on product and label size)
Suitable Product Size	Diameter≤100mm
Label Size	15-140mm(W)*25-300mm(L)
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ350mm

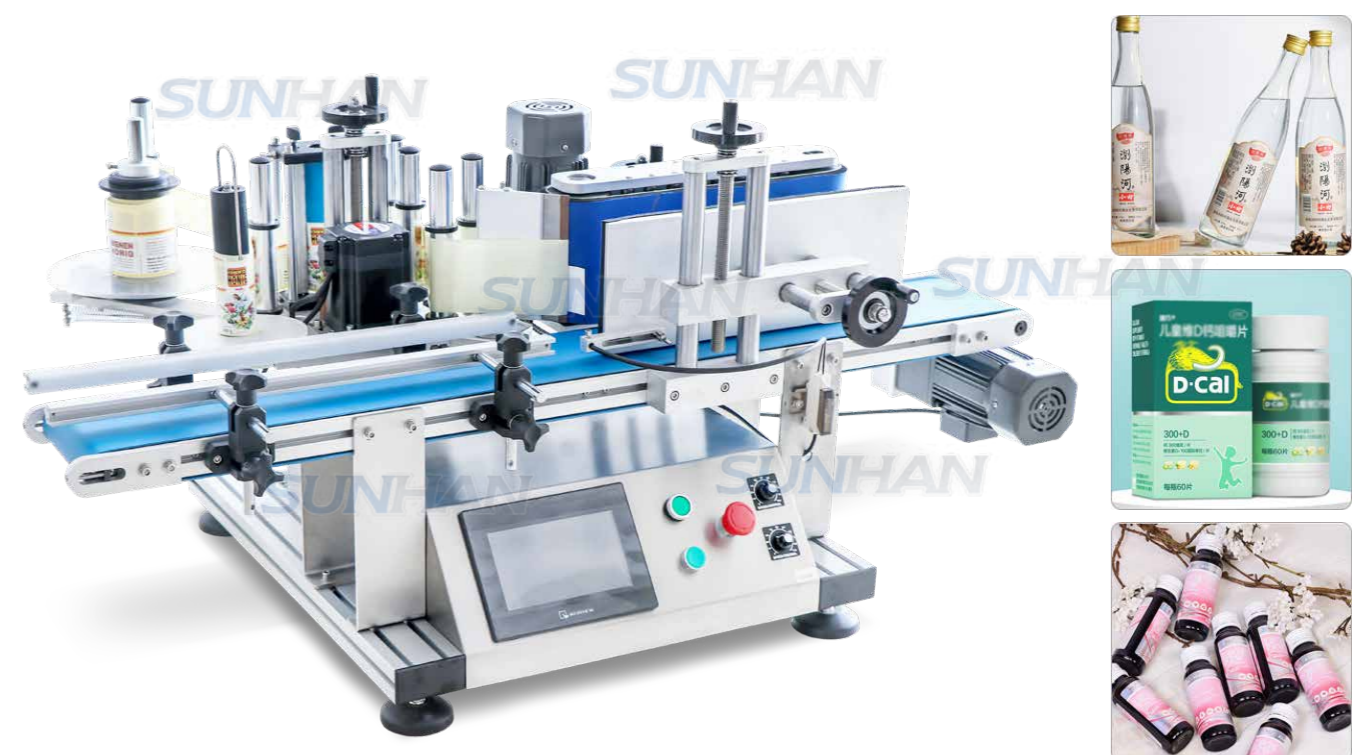

Full Automatic Round Bottle Labeling Machine

This machine is suitable for labeling round bottles. It can label 25-50pcs per minute, improving working efficiency. The machine can be widely used in medicine, beverage, chemical, cosmetic, daily chemical industries.

1. It is in small size and can run automatically, saving working space.
2. It can be equipped with date coder, which can print date or batch on labels.
3. It can work with filling and capping machine to realize automated production.

Machine model	SH-TB150
Voltage	220V-50HZ/110V-60HZ
Machine Power	1200W
Labeling Speed	About 25-50pcs/min(dependent on product and label size)
Labeling Accuracy	±1mm (excluding product and label errors)
Suitable Product Size	φ30-120mm/ Height 25-350mm
Label Size	15-40mm(W)*25-300mm(L)
Machine Size	About 1270*1000*780mm (L*W*H)

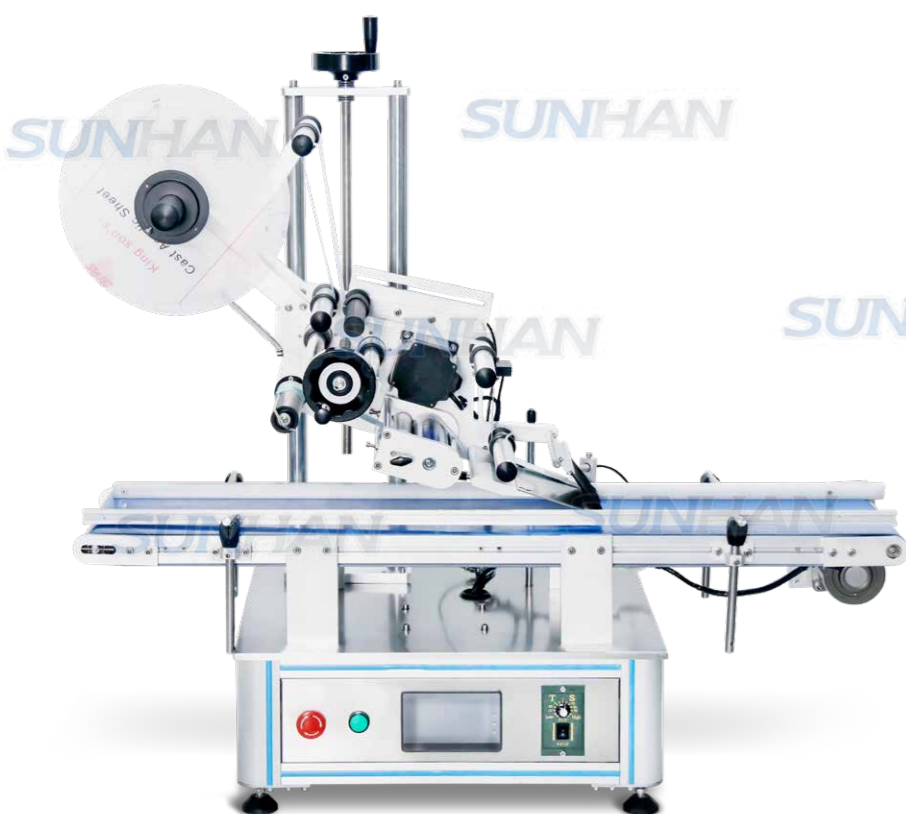

Flat Labeling Machine

This machine is suitable for labeling flat surface, like pouch, box, flat bottles, etc. It can be widely used in medicine, chemical, food, cosmetic industries.

1. Designed into desktop type, it can save working space.
2. It can be equipped with date coder, which helps to print date or batch on labels.
3. It can work with pouch separating machine, realizing automated production.

Machine model	SH-TB150PB
Voltage	220V-50HZ/110V-60HZ
Machine Power	800W
Labeling Speed	30-100pcs/min(depending on product and label size)
Labeling Accuracy	±1mm
Suitable Product Size	0-300mm(W)*0-350mm(L)
Label Size	≤150mm(W)
Label Roll Inside Diameter	Φ75mm
Label Roll Outside Diameter	Φ250mm
Conveyor Size	About 1100*300mm(L*W)
Machine Size	About 1130*1050*500mm(L*H*W)
Machine Weight	About 74kg

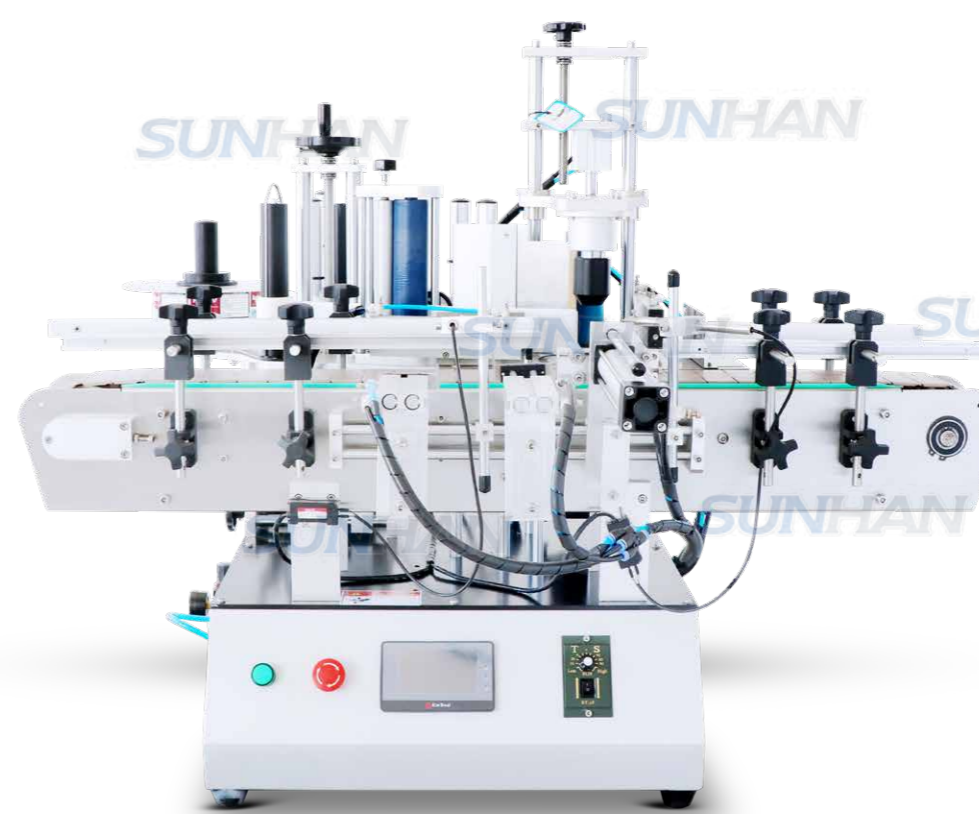

Automatic Hexagon Bottle Labeling Machine

This machine is specially designed for labeling hexagonal bottles. It can also be used for round or square bottles. The machine can be widely used in medicine, food, beverage, daily chemical, chemical, cosmetic industries.

1. It can be equipped with date coder, which can print date or batch on labels.
2. It is in small size and can run automatically, saving working space.
3. It can work with filling and capping machine to realize automated production.

Machine model	SH-TB550
Voltage	220V-50HZ/110V-60HZ
Machine Power	About 1000W
Labeling Speed	15-25bottles/min(depending on product and label size)
Labeling Accuracy	±1mm (excluding bottle and positioning error)
Suitable Product Size	φ≤100mm/ Height≤150mm (customized)
Label Size	≤150mm(W)
Machine Size	About 600*600*1000mm(L*W*H)
Machine Weight	About 104kg

Automatic Labeling Machine

This machine can be used for single side/double sides/full circle labeling on round bottles. Made of stainless steel, it is durable and can run stably. It can be widely used in pharmaceutical, chemical, cosmetic, beverage industries.

1. With 3 rolls to fix bottles, it can stick labels accurately.
2. It can work with filling and capping machine, realizing automated production.
3. It can be equipped with date coder, which can print production date or batch on labels.

Machine model	SH-TB260
Voltage	220V-50HZ/110V-60HZ
Machine Power	1500W
Labeling Speed	25-50pcs/min(depending on bottle and label size)
Labeling Accuracy	±1.0mm
Suitable Product Size	φ30-100mm
Label Size	15-150mm(W)*15-200mm(L)
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ350mm
Conveyor Size	1950mm*100mm(L*W)
Machine Size	About 2000*1400*1300mm(L*W*H)
Machine Weight	About 226kg

Automatic Dual-side Labeling Machine

This machine can be widely used for labeling square or round bottles. The labeling structure is flexible, which can be changed into the one that is suitable for double-side labeling on round bottles. It can be used in pharmaceutical, beverage, daily chemical, cosmetic industries.

1. It can be equipped with date coder, which can help to print date or batch on labels.
2. It can work with filling and capping machine to realize automated production.
3. Wide application: It's suitable for single-side or double-side labeling on round/square bottles.

Machine model	SH-TB300A / SH-TB300B
Voltage	220V-50HZ/110V-60HZ
Machine Power	1500W
Labeling Speed	60-350pcs/min(depending on bottle and label size)
Suitable Product Size	Thickness 20-120mm/ Height 30-350mm
Label Size	15- 200mm(W)*25-300mm(L)
Round Bottle	Single Side/Single&Double Sides
Flat Bottle	Double Sides
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ350mm
Machine Size	About 2120*940*1500mm(L*W*H)
Net Weight	About 450kg

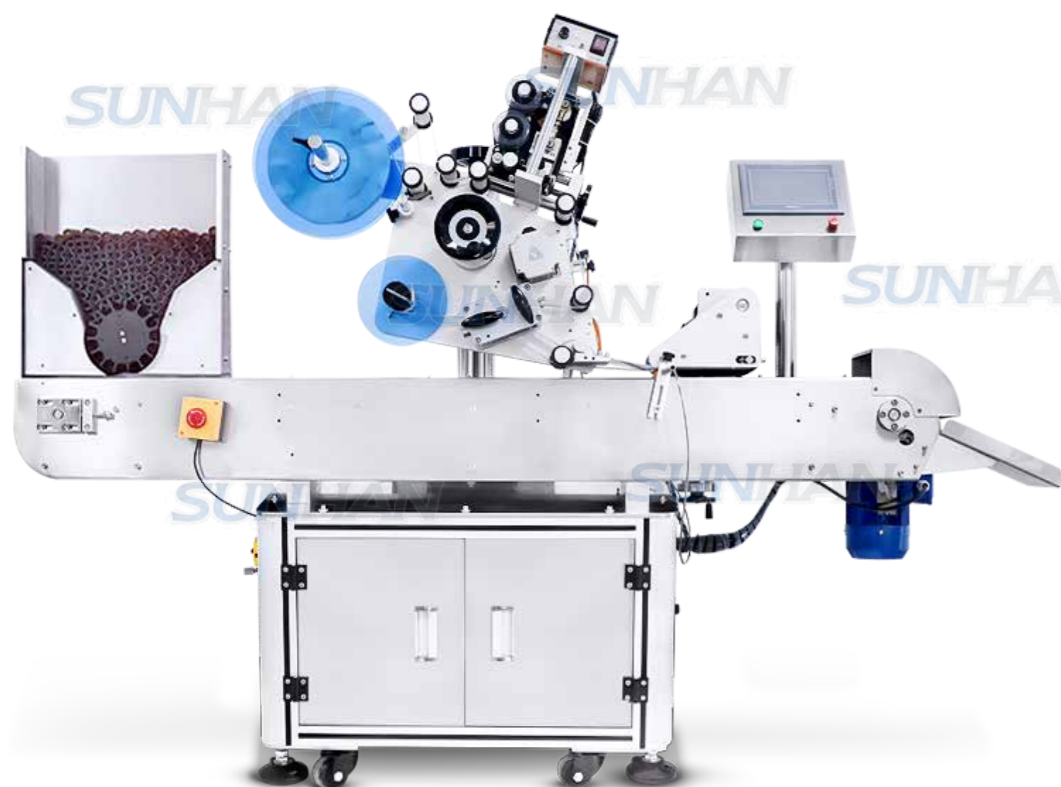

Automatic Round Bottle Labeling Machine

This machine is suitable for labeling small round cylinders, such as test tubes, oral liquid bottles. It can label 300 bottles per minute at max, greatly improving efficiency. It can be widely used in pharmaceutical, cosmetic, chemical industries.

1. With date coder, it can help to print date or batch on labels automatically.
2. High working speed: It can label 100–300 bottles per minute.
3. Designed for small bottles which are easy to fall down, it can feed and label bottles automatically.

Machine model	SH-TB823
Voltage	220V-50HZ/110V-60HZ
Machine Power	700W
Labeling Speed	100-300bottles/min(depending on product and label size)
Labeling Accuracy	±1mm
Suitable Product Size	φ10-30mm
Label Size	20-120mm(W)*20-300mm(L)
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ300mm
Machine Size	About 2040*690*1370mm(L*W*H)
Machine Weight	About 220kg

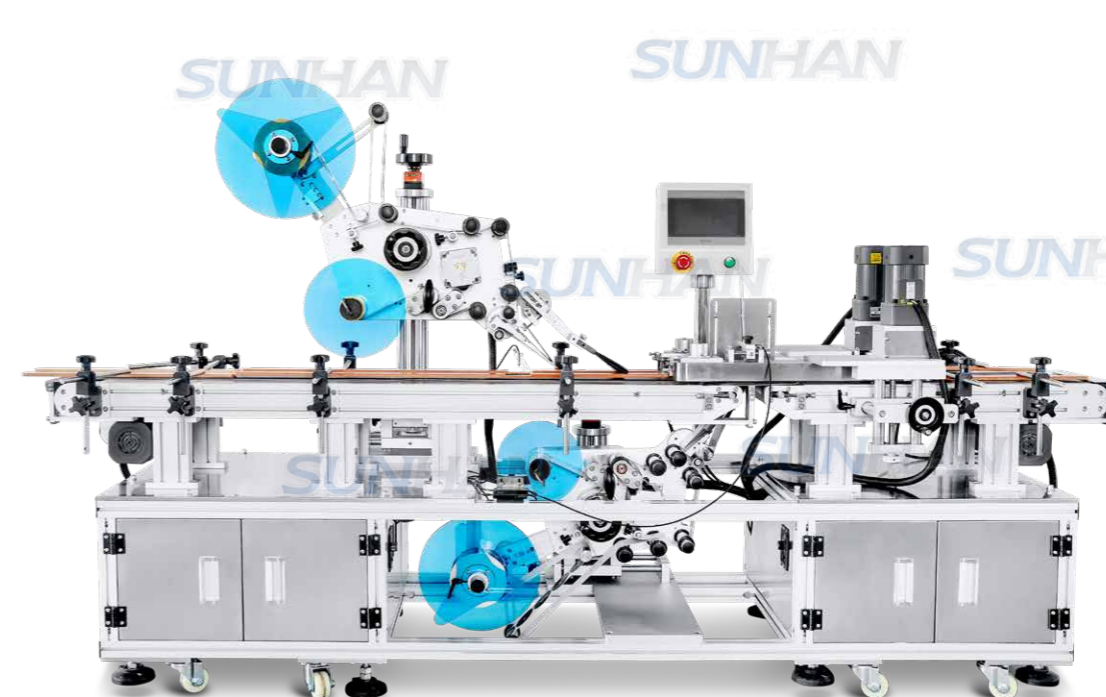

Double Side Flat Surface Labeling Machine

This machine is not only suitable for double sides labeling on square bottles, but suitable for top and bottom labeling on flat surface of products. It can be widely used in medicine, chemical, daily chemical, beverage, cosmetic industries.

1. Can stick labels on top and bottom of flat products.
2. It can be equipped with date coder, which can print date or batch on labels.
3. It can work with filling and capping machine to realize automated production.

Machine model	SH-TB113B
Voltage	220V-50HZ/110V-60HZ
Machine Power	600W
Labeling Speed	About 20-80 pcs/min(depending on product and label size)
Labeling Accuracy	±1mm
Suitable Product Size	Customize
Label Size	Customize
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ300mm
Machine Size	About 2490*6250*1410mm(L*W*H)
Machine Weight	About 369kg

Automatic Positioning Round Bottle Labeling Machine

Equipped with two labeling structures, it can be used for labeling bottle caps and round bottle body. Two structures can be controlled separately. The machine can be used in medicine, cosmetic, daily chemical, food industries.

1. It can label bottle caps and bottle body at the same time, improving working efficiency.
2. It can be equipped with date coder, helping to print date or batch on labels.
3. It can work with automatic filling and capping machine, achieving automated production.

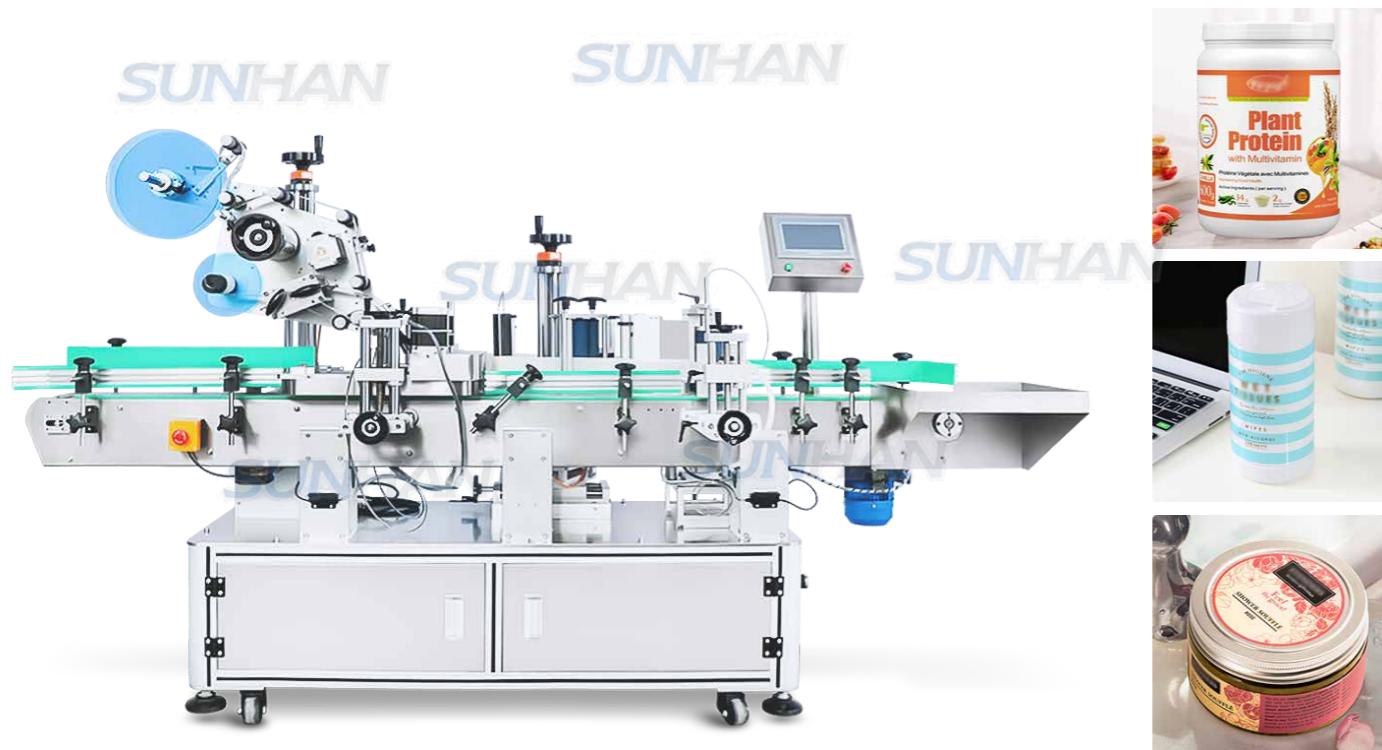

Machine model	SH-TB822D
Power Supply	220V-50HZ/110V-60HZ
Machine Power	5kW
Labeling Speed	25-45 bottles/min(depending on bottle and label size)
Labeling Accuracy	±1.0mm
Suitable Product Size	Φ25-100mm
Label Size	20-150mm(W)*20mm-285mm(L)
Label Roll Inside Diameter	Φ76mm
Label Roll Outside Diameter	Φ280mm
Conveyor Size	2380mm*100mm(L*W)
Machine Size	About 2550*1080*1590mm(L*W*H)
Net Weight	About 378kg

Automatic Flat Surface Labeling Machine with Paging Machine

This machine has the function of separating pouch and sticking labels on it automatically. It can label 40-120 pcs/min, greatly improving working efficiency. It can be widely used in chemical, daily chemical, food industries.

1. Suitable for labeling flat pouch, hang tag, paper, etc.
2. It can separate and label products, greatly saving labor cost.
3. It can be equipped with date coder, which can print date or batch on labels.

Machine model	SH-TB832
Voltage	220V-50HZ/110V-60HZ
Machine Power	820W
Labeling Speed	40-120 pieces/min(depending on product and label size)
Labeling Accuracy	±1.0mm(based on product and label size)
Suitable Product Size	40-300mm(L)*40-200mm(W)*0.2-5mm(H)
Label Size	15-130mm(W)*6-300mm(L)
Label Roll Inside Diameter	Φ76mm
Label Roll Outside Diameter	Φ300mm
Machine Size	About 2440*830*1350mm(L*W*H)
Net Weight	About 224kg

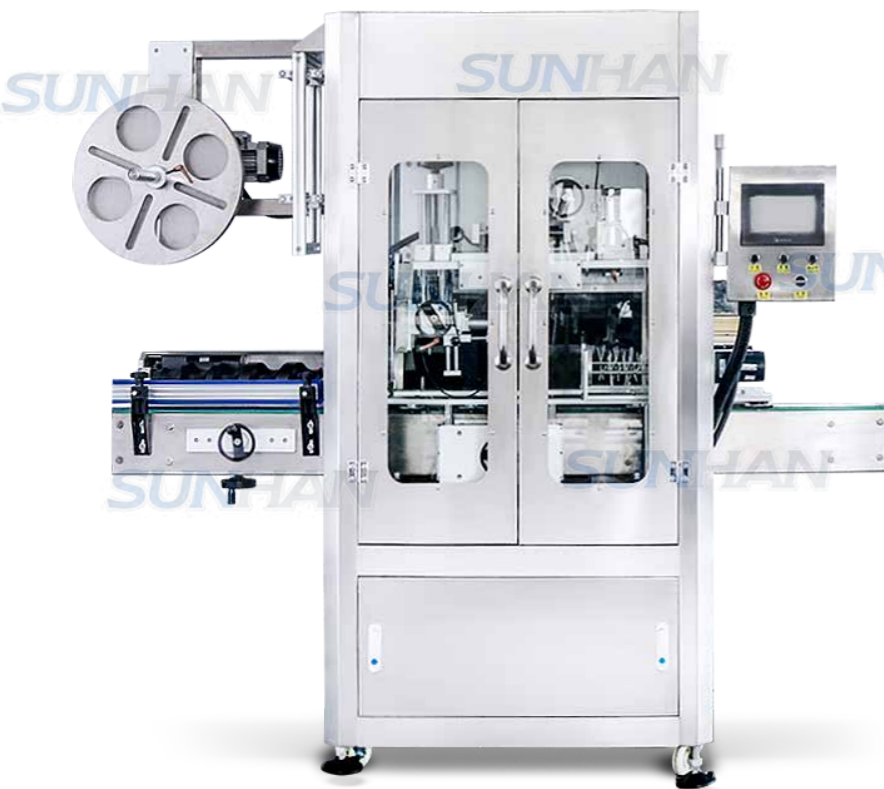

Sleeve Labeling Machine

This machine is suitable for sleeve labeling on bottles. It can be used for different shapes of bottles like square bottles, round bottles, oval bottles. The machine can be widely used in medicine, beverage, cosmetic, chemical industries.

1. Suitable for bottleneck or bottle body labeling.
2. High working speed, it can label 150 bottles per minute.
3. It can work with label sleeve shrinking machine, realizing automated production.

Machine model	SH-STB150
Voltage	220V Single Phase
Power	15KW
Labeling Speed	150bottles/min(depending on label length)
Suitable Product Size	φ28mm-φ125mm/ Height 30mm-280mm
Label Size	30mm-250mm(L)
Label Thickness	0.03mm-0.13mm (PVC, PET, OPS, materials are all available)
Sleeve Standard Error	±1.5mm
Paper Tube Inner Diameter	5"-10"(Can be adjusted)
Conveyor Belt Size	Standard 2M
Machine Size	About 2950*1030*1870mm(L*W*H)
Machine Weight	About 464Kg

Automatic Assembly Line Labeling Machine

This machine is suitable for labeling flat surface, like boxes, flat bottles, CD case, etc. It can be widely used in pharmaceutical, drink, chemical, daily chemical, cosmetic industries.

1. It can work as one part of production line or work independently.
2. It can be equipped with date coder, which can print date or batch on labels.
3. High working speed: It can label 40-120pcs per minute.

Machine model	SH-TB851
Voltage	220V-50HZ/110V-60HZ
Machine Power	330W
Labeling Speed	40-120pcs/min(based on products and label size)
Labeling Accuracy	±1mm
Suitable Product Size	10-150mm
Label Size	15-130mm(W)*60-300mm(L)
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ300mm
Machine Size	About 870mm*920mm*1610mm(L*W*H)
Machine Weight	About 76kg

Automatic Side Labeling Machine

This machine is suitable for sticking single label on large products like cartons, buckets. It can be widely used in chemical, daily chemical, food, beverage industries.

1. Suitable for side labeling on large products.
2. It can be equipped with date coder, which can print batch or date on labels.
3. It can work as a single machine or work as a part of production line.

Machine model	SH-TB852
Voltage	220V-50HZ/110V-60HZ
Machine Power	330W
Labeling Speed	About 40-150bottles/min(dependent on product and label size)
Labeling Accuracy	±1mm
Label Size	15-130mm(W)*6-300mm(L)
Label Roll Inside Diameter	φ76mm
Label Roll Outside Diameter	φ300mm
Machine Size	About 890*690*1430mm(L*W*H)
Machine Weight	About 70kg

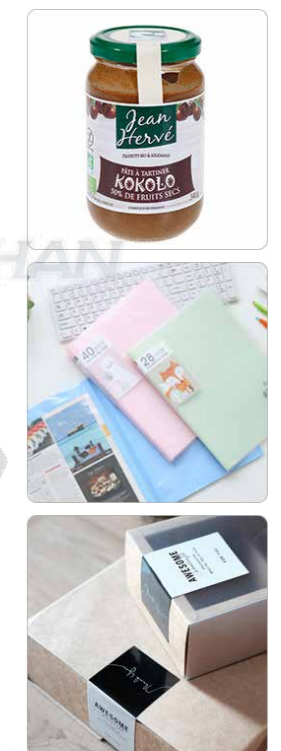

Automatic Corner Labeling Machine

This machine is designed for sticking anti-tamper labels on corner of boxes, bottle caps, etc. It can be widely used in medicine, chemical, food, daily chemical industries.

1. Suitable for labeling corner of products so as to avoid getting tampered.
2. High working speed, it can label 30-60pcs per minute.
3. It can be equipped with date coder, helping to print date or batch on labels.

Machine model	SH-TB833
Voltage	220V-50HZ/110V-60HZ
Machine Power	1500W
Labeling Speed	30-60PCS/min(dependent on bottle and label size)
Suitable Product Size	20-300mm(L)*20-300mm(W)*10-100mm(H)
Label Size	6-150mm(W)*20-300mm(L)
Label Roll Inside Diameter	Φ76mm
Label Roll Outside Diameter	Φ300mm
Conveyor Size	1600mm*200mm(L*W)
Collecting Plate Size	345*300mm
Machine Size	About 790*605*1435mm(L*W*H)
Machine Weight	About 192kg

Automatic Round Bottle Labeling Machine

This machine is suitable for labeling round bottles, like wine bottles, milk bottles, essential oil bottles, etc. It can be widely used in pharmaceutical, beverage, daily chemical, cosmetic industries.

1. High working speed: It can label 30–160pcs per minute.
2. It can be equipped with date coder, which can print date or batch on labels.
3. It can work with filling and capping machine, achieving automated production.

Machine model	SH-TB200
Voltage	220V-50HZ/110V-60HZ
Machine Power	1100W
Labeling Speed	30-160pcs/min(depending on bottle and label size)
Labeling Accuracy	±1.0MM
Suitable Product Size	φ20-120mm
Label Size	30-150mm(W)*30-300mm(L)
Label Roll Inside Diameter	φ76MM
Label Roll Outside Diameter	φ280MM
Conveying Speed	16m/min
Marking Speed	5-19m/min
Machine Size	About 2000*900*1500mm
Machine Weight	About 250KG
