MCHAOS Power Bank Operation Instructions

Thank you for purchasing and using this product!
In order to provide you with a better user experience, please read this manual carefully before using this product and keep it properly, for future reference.

Manufacturer: Shenzhen Mindblowing Technology Co. Ltd.
Address: Room 202, Floor 2, Workshop 1, Zone A, Xiangli Industrial Park, No.1 Xiangli Road, Qinghua Community, Longhua Street, Longhua District, Shenzhen, China.

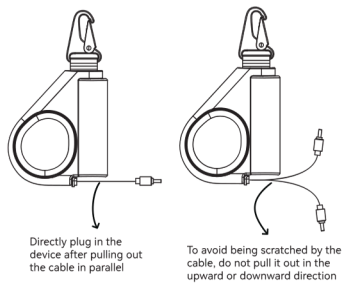

Product Description

Product Specifications

Product Name	MCHAOS Power Bank
Modle	NDDY008
Package Dimensions	115*91*86mm
Net Weight	≈180g
Type-C Input	5V=3A / 9V=2A (18W)
Type-C Output	5V=3A / 9V=2.22A 12V=1.5A (20W)
Battery	21700/3.65V/4800mAh
Rated Output Capacity	2600mAh

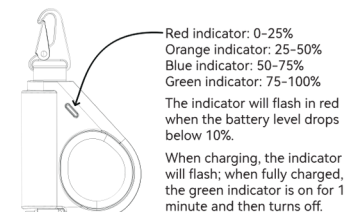

Instructions And Notice

Directly plug in the device after pulling out the cable in parallel

To avoid being scratched by the cable, do not pull it out in the upward or downward direction

A Guide to Indicator Light

Red indicator: 0-25%
Orange indicator: 25-50%
Blue indicator: 50-75%
Green indicator: 75-100%

The indicator will flash in red when the battery level drops below 10%.

When charging, the indicator will flash; when fully charged, the green indicator is on for 1 minute and then turns off.

Note: To check the power level, simply pull out the cable in parallel to activate the Hall switch. The indicator light will then display a specific color to determine the remaining power.

Parts	List of Hazardous Substance in Product					
	Pb	Hg	Cd	PBB	Cr(VI)	PBDE
PCBA	X	0	0	0	0	0
Case	0	0	0	0	0	0

This form is compiled in compliance with Electronic Industry Standard SJ/T11364.
0: It indicates the content of the hazardous substance in all homogeneous materials of the parts is below the limit specified in GB/T26572.

X: It indicates the content of the hazardous substance in at least one homogeneous material of the part exceeds the limits specified in GB/T26572.

Note: This product is marked with an "X" because there are no alternative technologies or components available at this stage.

Notice

- 1.It is normal for the case to slightly heat up during use, and it will gradually drop to normal ambient temperature after fully charged.
- 2.Children must be supervised by an adult while using it.
- 3.Avoid placing the product in high humidity or high temperature.
- 4.Do not disassemble it by yourself.
- 5.If the product is physically damaged, please stop using it.

Batteries contained in the power bank should NOT go in household garbage. Please take them to authorized recycling centers.

The number on this label indicates the environmentally-friendly service life of the product under normal use conditions is 5 years.
