# Executive Summary

EliteBuild Solutions objective is to provide our valuable clients the best skilled and professional construction staff, advanced technical solutions and specific innovative products to deliver their projects on time and budget.

## Mission

To form partnerships resulting in innovative, cost effective and quality projects and services.

---

### Project Engineering Services

With a specialist and comprehensive portfolio of engineering solutions, combined with our project management protocols, we ensure that every project is completed within schedule and with no issues.

---

### Labour Hire Services

EliteBuild Solutions provides labour hire and places highly skilled candidates across local and national projects.

---

### Diamond Grid

DiamondGrid™ is the strongest surface stabilisation and erosion control system on the market. DiamondGrid™ can carry up to 1000 Tonnes Per Square Meter and is 100% Recycled Polypropylene.

---

### Construction Posts

These zero maintenance fence posts are made from 100% Australian recycled plastics. Built for superior strength and longevity, they out perform timber post.

---

### Safety Matting

We provide an extensive range of rubber matting solutions, expertly designed and developed to ensure a safer and more comfortable environment for construction sites.

# About EliteBuild Solutions

PAGE 4

Focused on comprehensive  
design and build solutions.

## EliteBuild Solutions

EliteBuild Solutions objective to provide our valuable clients the best skilled and professional construction staff, advanced technical solutions and specific innovative products to deliver their projects on time and budget.

Our people are dedicated to excellence through consultation, ingenuity and innovation while ensuring total commitment to workplace health and safety, business ethics and cooperation.

We strive to build positive professional relationships with contractors and project staff, so that we can deliver all construction projects to the highest standards. With our team of experts providing support for all your needs, you can be sure that your project is in very safe hands.

Through our of range of high-end construction products, you can decrease downtime and increase efficiencies.

We adhere to all construction practices.

# Construction Labour Hire

EliteBuild Solutions supply qualified and skilled workers to our clients to ensure maximum productivity is achieved.

## Ensuring our clients achieve their goals and succeed in their field.

We specialise in temporary and long-term workforce solutions to the building and civil construction industries.

Our workforce solution strategy will fit the needs of your business.

Specialising in construction labour hire and general recruitment, we ensure you have a cost effective solutions to meet your production goals.

We strive to maintain the highest levels of client support, timely service through outstanding integrity and professionalism.

# Project Engineering Services

EliteBuild Solutions offers clients flexibility on every aspect of a project from budget through to design and delivery.

## **Ensuring our clients projects are completed within schedule and with no issues.**

With a specialist and comprehensive portfolio of engineering solutions, combined with our project management protocols, we ensure that every project is completed within schedule and with no issues.

We help clients from the public and private sector deliver a range of complex, multi-stakeholder projects. Working flexibly on every aspect of a project from budget through to design and delivery.

We deliver high-quality, constructable engineering design solutions suitable for the residential, commercial and public sector.

We meet your organisational needs by supporting long term lowest cost operation, offering you the safest and best value delivery.

# Diamond Grid

EliteBuild Solutions provides an alternative to traditional concreting - carrying a comparable load at up to 91% cost savings.

## Ensuring our clients have the strongest surface stabilisation and erosion control system on the market.

DiamondGrid™ is 100% recycled polypropylene, engineered for load of up to 1000 Tonnes per square meter, with up to 96% permeability, used extensively for all driveways, hardstands, and shed flooring.

It is proven for heavy static and high-frequency traffic load, for mining, construction, and agriculture.

-  **Reduce the preparation cost of the Subgrade by reducing the thickness required.**
-  **Increase load bearing capability of roads.**
-  **Distribute load more evenly over surface.**
-  **Reduce frequency and cost of maintenance by up to 70%.**
-  **90% elimination of vehicle accidents as with DiamondGrid™ the roads are free of potholes and corrugation.**
-  **Holds the road together for much greater periods.**

# Construction Posts

EliteBuild Solutions provides safety fence posts that last a lifetime.

## A duty to our clients to keep your workers and your workplace safe.

These zero maintenance fence posts are made from 100% Australian recycled plastics.

Built for superior strength and longevity, they out perform timber posts while featuring an attractive aesthetic for contained areas, including construction sites. We can help you customise sizes and solutions to suit any project. Or, take advantage of our easy to install DIY star picket dressing kit where public safety, quick turn around and budget are major concerns.

**REDBUCK**  
STAR PICKET SYSTEM

High Visibility, Easy To Install,  
Low Cost, Zero Maintenance,  
Mobile Fence Post System

Slips straight onto a  
standard star picket  
secured with a unique  
cap lock design

**DIY Star Picket Kit**  
High Visibility available in a selection of colours

Orange, Yellow, Red, White, Black

# High Grip Safety Mats

EliteBuild Solutions provide an extensive range of rubber matting solutions, expertly designed and developed.

## Ensuring a safer and more comfortable environment for construction sites.

Our premium quality mats are made from the finest natural rubber ensuring high performance, softness and long-lasting durability. All of our products are supported by a full warranty.

The interlocking MG Max 4 Matting is a heavy-duty mat that has a 'penny' high-grip surface, which allows for maximum foothold. These mats are ideal for use in construction on walkways, slippy areas and outdoor walking surfaces.

### SAFE AND DURABLE

✓ The MG Max 4 is a safe and durable matting solution that is suitable for both indoor and outdoor use.

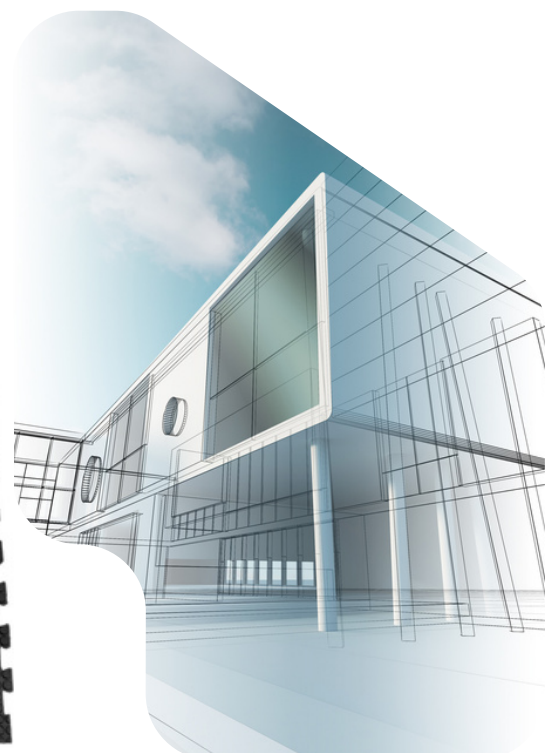

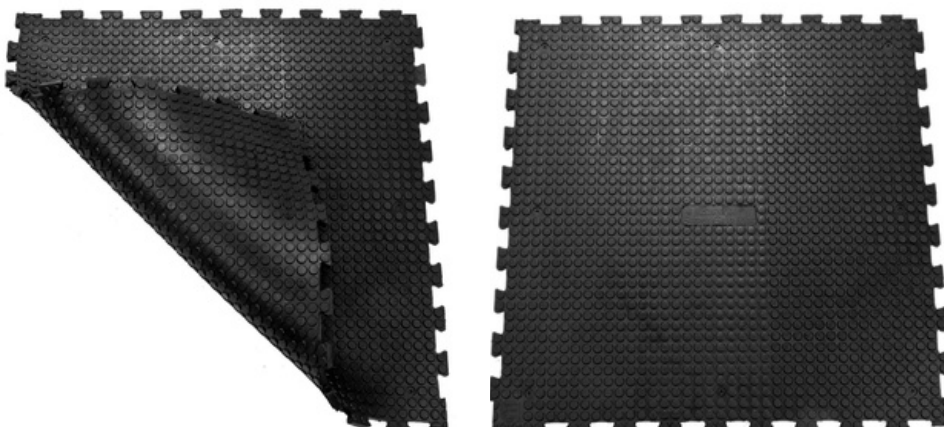

### DIY INSTALLATION

✓ The mat is interlocking, which provides an easy installation and creates a seamless finish.

### MAINTENANCE FREE

✓ Once installed, the MG Max 4 is a maintenance free mat that can be easily wiped down if needed.

Length	Width	Depth	Weight
1000mm	1000mm	22mm	23kg

# Batten Fixers, Batten and Acoustic Decking Flooring System

**Ideal for use in construction, decking and flooring projects.**

EASYFIX **Batten Fixers** are an innovative product which supports the timber joist and keeps them clear of the subfloor – ideal for use in construction, decking and flooring projects.

They are available in three different sizes 10mm, 24mm and 38mm, the batten fixer significantly reduces acoustics noise in residential builds. Levellers can be supplied to adjust the height where floor surfaces are uneven.

- 
**SUPPORTS TIMBER JOIST**  
 The batten fixers support the timber joist and keeps it clear of the subfloor.
- 
**CREATES A MOISTURE BARRIER BETWEEN THE DECK AND THE SURFACE**  
 The batten fixers support the timber joist and keeps it clear of the subfloor.
- 
**EXTENDS THE LIFESPAN OF THE TIMBER**  
 The batten fixers extend the lifespan of the timber. There is no need for piercing of the base and the deck can be left floating.

Length	Width	Depth	Weight
70mm	70mm	10mm	0.20kg
70mm	70mm	24mm	0.27kg
70mm	70mm	38mm	0.35kg
