

Easy Fit

WALL  SLATS

by Lamet

REVOLUTIONISING SURFACE DESIGN

Crafted in the UK, our 'Easy Fit Wall Slats' ensure seamless installation for a cost-effective, stylish interior transformation.

Beyond standard, our Wall Slats boast durability, lightweight design, waterproof qualities, and a unique magnetic feature making change easy.

Our selection of stone, fabric, metal, and wood finishes is unmatched, offering unparalleled finishes for any interior.

About us

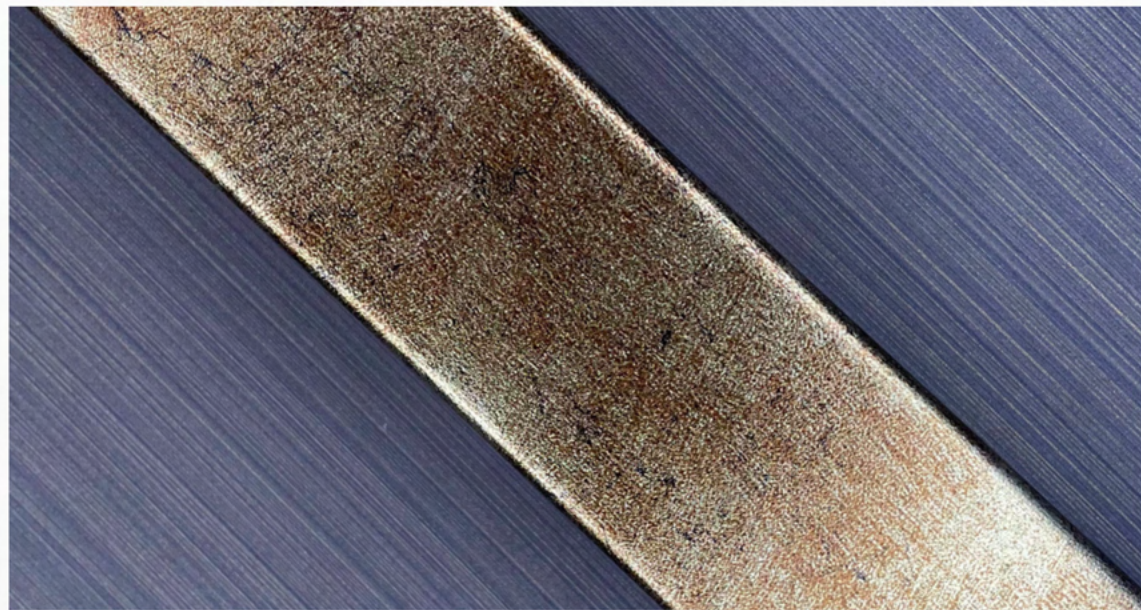

Nestled in the heart of Buckden, Cambridgeshire, Lamet stands as a beacon of innovative design in the world of interior aesthetics. Our story begins with Lamet's vision: to craft wall slats that embody both elegance and practicality. Each slat, handcrafted in our dedicated UK facility, represents our commitment to quality, sustainability, and local artisanship.

We offer a unique collection of over 100 finishes, ranging from rustic woods to luxurious metallics, each designed to transform spaces into narratives of personal expression. Our pioneering 'Easy Fit Wall Slat' system is revolutionary as it offering seamless interchangeability and installation without tools, redefining the ease of wall renovation.

At Lamet, we believe in creating not just products, but experiences that resonate with emotion and creativity. Join us on this journey of transformation—one wall at a time.

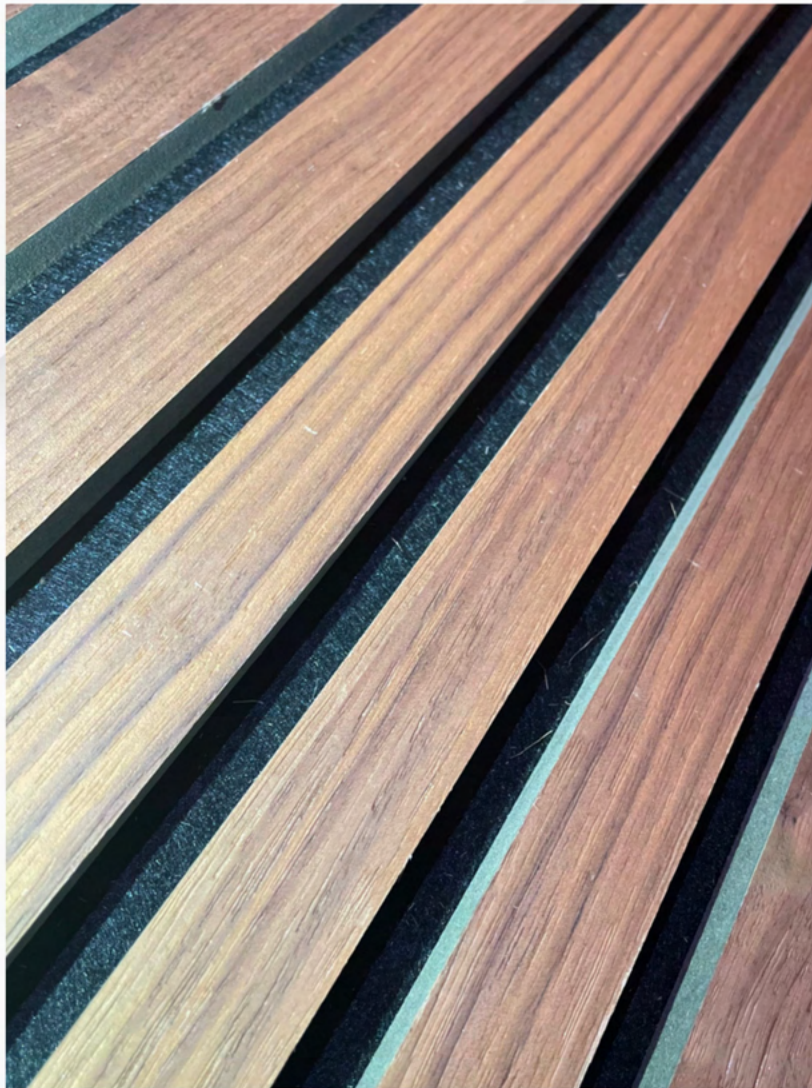

We are not your normal Wall Slat company

At Lamet, we revolutionise wall design with our unique 'Easy Fit Wall Slat' system. Distinct in the market, our wall slats are designed for effortless interchangeability and a commitment to both elegance and sustainability. Handcrafted in the UK from over 100 luxurious finishes, our slats cater to dynamic design needs while promising cost-effective and eco-friendly solutions. With our Wall Slats they can transform any space with ease, no tools required.

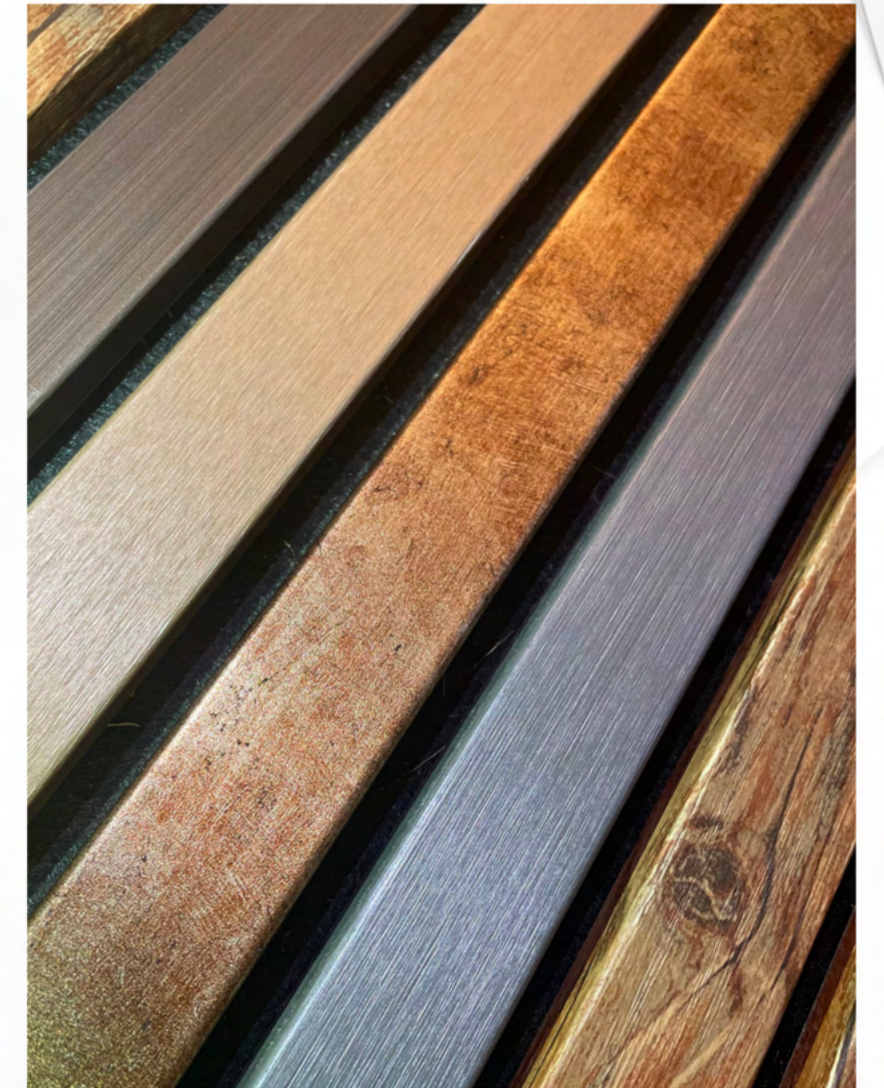

Pioneering wall decor innovation, 'Easy Fit Wall Slats' by Lamet are more than a style statement—they embody sustainability and safety. These slats are a tribute to eco-luxury, bringing an eco-conscious elegance to your spaces. Beyond their visual appeal, they offer the confidence of top-tier fire safety, blending security with sophistication. Curious about the creators behind these innovative slats?

Embrace Change: with our Easy Fit solution

Designed to integrate flawlessly with existing wooden acoustic panels, this revolutionary product offers a refreshing makeover for existing or new interiors without the complexities of a full renovation. Lamet's innovative 'Easy Fit Wall Slats' elegantly enhance existing wooden acoustic panels, redefining sustainability in interior design. By increasing the existing slat width by 1.2mm and reducing the inter-slat gap, we offer a sleek, updated aesthetic.

Furthermore, the option to clip over not just one but two existing slats or even three, creating a greater width of Wall Slat, providing a striking visual upgrade and a multitude of new design possibilities.

Vision

To be the vanguard of wall design, where innovation meets tradition. Our vision is to inspire creativity in every space, making high-end design accessible. We aim to lead the industry with our pioneering 'Easy Fit Wall Slat' system, setting new standards for style, sustainability, and simplicity in installation.

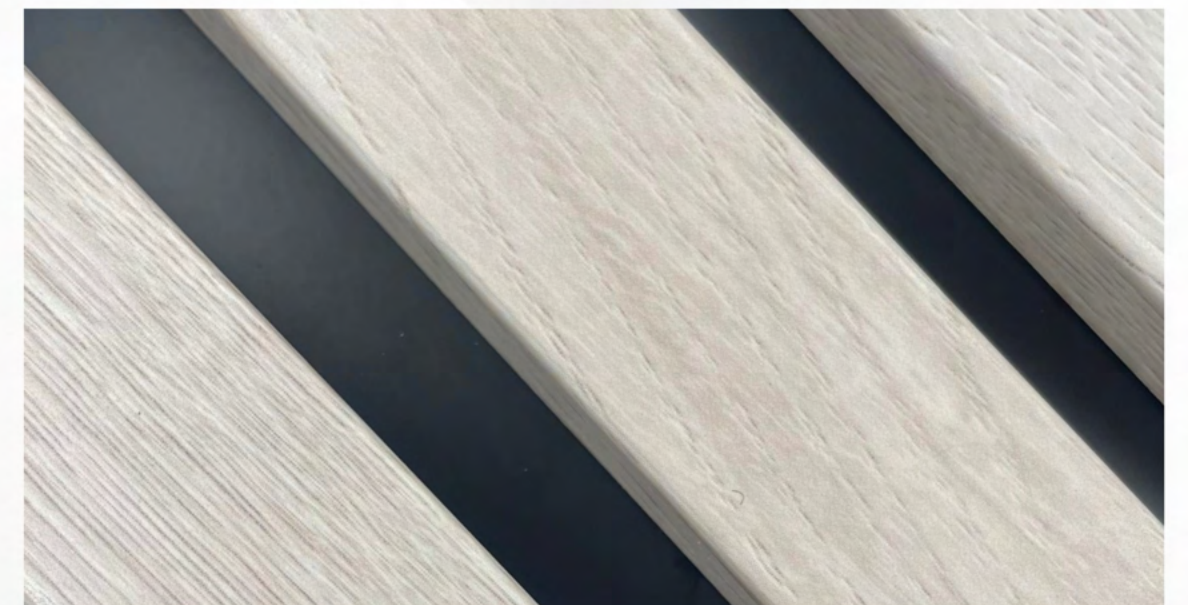

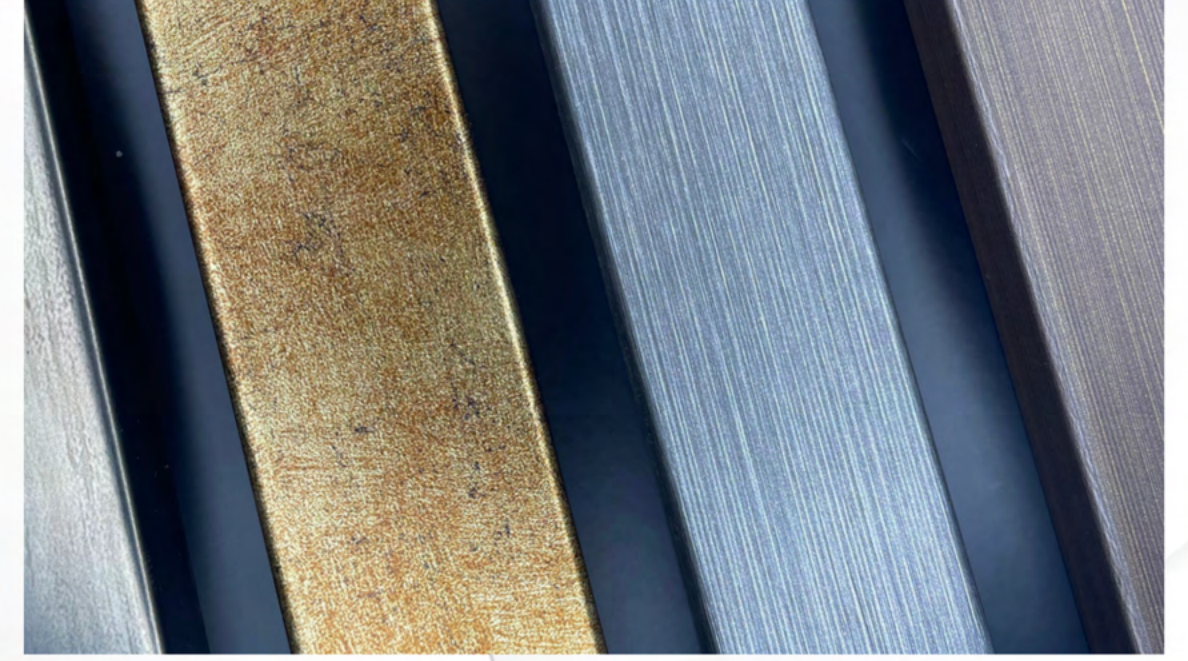

Mission

Our mission is to empower customers to reinvent their environments with ease and elegance. We are committed to delivering handcrafted, quality wall slats from our UK-based workshop, offering an array of finishes to suit any ambiance while advocating for environmental responsibility and local craftsmanship.

What finishes are available?

With access to over 100 bespoke finishes, including authentic wood grains, luxurious metallics, rustic stone textures, and elegant fabrics, each crafted to perfection, allowing for an unparalleled customisation of your space.

Summary

Lamet offer a unique proposition for businesses aiming to deliver cutting-edge interior solutions to their clients. These wall slats blend functionality with aesthetic appeal, providing an easy-to-install, interchangeable system that's perfect for dynamic commercial environments. They are not only waterproof, UV resistant, and fire-rated for safety but also crafted with sustainability in mind, showcasing a commitment to eco-friendly design. The addition of the magnetic feature adds an innovative layer of functionality, allowing for easy change and even the addition of attaching fixtures or decorations.
