baskets for spa-quality
facial steaming

Nano-sized
water molecules to
hydrate and soften
the skin

Ion generator
feature for better
steam
performance

With an auto shut-
off feature

Suitable for all skin
types

Product Functions

Sensa Nano Ionic Facial Steamer is a revolutionary device that generates nano-sized steam particles that penetrate deeply into the skin, which can enhance blood circulation and skin suppleness. Designed to calm the skin and soften blackheads/whiteheads making them easier to remove. Detox and open your pores with the Sensa for a relaxing and soothing experience, helping you to de-stress and unwind after a long day. Include the Sensa Nano Ionic Facial Steamer into your self-care routine for a healthier, glowing complexion.

HOW TO PREPARE SENSA

 Only fill the tank with distilled water. Using tap water may cause limescale buildup that can shorten its lifespan. Don't use oils, herbs, etc. in place of water.

1. Remove the tank and unscrew the plug.
2. Pour the distilled water into the tank up to the MIN level, but not higher than the MAX mark. The MAX mark is enough water for one 15-minute session.
3. Close the water tank and fasten the plug. Insert the water tank back into the unit until it clicks into place.
4. For best results, wash your face before the treatment.
5. You can adjust the nozzle according to your preferred angle.
6. For a full spa experience, soak the basket's foam portion in your favorite essential oil and place it over the nozzle. There are three baskets included to prevent mixing of oils.

HOW TO USE SENSa

 **Warning:** To avoid risk of burns or injury, only adjust the nozzle when the device is turned off.

Sensa was specially designed to help detoxify and cleanse your skin. We recommend using the steamer no more than 15 minutes a day, two-to-three times a week.

Let's get started:

1. Place the facial steamer on a flat, secure, and water-resistant surface, plug in the mains and press the power button. This will turn on the blue indicator light and begin heating the water.
2. After about one minute, steam made of nano-sized water molecules will begin to come out of the nozzle. Wait for another minute before facing the steam.
3. Close your eyes and slowly move your face towards the plume of steam, making sure the steam covers your entire face.

 **Warning:** To avoid risk of burns or injury, keep a distance of at least 10 inches away from the nozzle.

- The steamer will automatically turn off after 15 minutes.
- Make sure to unplug the mains once done.
- After your session, wash your face and apply your preferred skincare product such as facial creams or face mask. Your clean and opened pores will

HOW TO USE SENSEA

enhance the benefits of these products.

- Let the steamer cool for about 10 minutes before cleaning and storage.

 **Warning:** Do not fill the water tank with essential oils or other liquids. Use only distilled water.

Make your detox treatments more relaxing and therapeutic by following the steps below:

1. Soak the basket's foam portion in your preferred essential oil.
2. Place the basket on the nozzle.
3. Press the power button to begin your session.

HOW TO CLEAN SENSA

 **Warning:** Before cleaning the steamer, make sure that the AC adapter has been disconnected.

1. To prolong the life of your steamer, empty and clean the water tank after every use, making sure to remove any grease or residue.
2. To clean the nozzle and base of the device, simply use a soft, slightly damp cloth and then wipe them dry.

SAFETY TIPS

Note: Please consult a physician if you relate to any of the following:

- If you have sensitive skin
- If you are taking a dermatologist-related medication
- If you are undergoing treatment
- If you are pregnant
- If you have pre-existing medical conditions

WARNING

- The Sensa Nano Ionic Facial Steamer is only meant for indoor/home use.
- Project E Beauty can't be held responsible for any damage caused by the incorrect usage of the appliance.
- Keep out of reach of children under eight years old.
- Children over the age of eight should be supervised when using the steamer.
- Children shouldn't be allowed to clean the steamer.
- Do not attempt to use the steamer if it is damaged. Please contact customer service immediately.
- Before connecting the steamer to an outlet, make sure that the voltage is compatible with the device.
- Do not shake, move, or cover the steamer while in use.
- Remove any pieces of jewelry before your detox session.
- If you experience pain or discomfort during the treatment, immediately stop and consult a physician right away.
- If the steamer gets submerged in water, immediately disconnect the steamer from the outlet and only allow a qualified professional to check/repair the device.

SIGNS AND SYMBOLS GUIDE

These symbols can be found on the instruction manual, the packaging, and on the type plate for the device:

 WARNING	This indicates risk of injury.
 SAFETY	This symbol warns of the risk of damaging the device.
	This notes that the device shouldn't be used near water or in water (i.e. in the sink, shower, or bath) due to risk of electrocution.
	The CE symbol confirms that the device complies with the requirements established by the European Community.
	This symbol indicates that the device should be disposed of in accordance with the EC Directive WEEE (Waste from Electrical and Electronic Equipment).

DISPOSAL

If you're looking to dispose of this appliance, please make sure to do so in accordance with the EC Directive WEEE (Waste from Electrical and Electronic Equipment).
