MANAGEMENT DISCUSSION AND ANALYSIS

To avoid duplication between the Directors' Report and the Management Discussion and Analysis, we present below a composite summary of performance and functions of the Company.

OVERALL REVIEW

The macro-economic stability of the Indian economy improved in the first half of the current year, weathering global headwinds. Economic growth was supported by good monsoon rains and better crop production, and, the expansion in Government expenditure due to payouts on account of the Seventh Pay Commission.

Various new initiatives were undertaken in this year as part of the economic reforms of the Government which include: the passage of Goods and Service Tax bill, the merger of railway budget with the general budget to allow for holistic planning and budgeting of transport infrastructure, advancing of the budget cycle by close-to-a-month, passage of the Insolvency and Bankruptcy Code 2016, formalization of the Monetary Policy Committee and instituting inflation targeting, changes in FDI policy regime with putting a large number of sectors on automatic route for FDI.

The prospects for Indian economy for the year 2017-18 need to be assessed in the light of emerging global and domestic developments. Indications are that global economic growth is gradually picking up.

As per the First Advanced Estimates released by the Central Statistics Office, the economy is estimated to grow at 7.1 per cent in 2016-17, as compared to the growth of 7.6 per cent achieved in 2015-16.

The textile industry contributes to 10% of manufacturing production, 2% of India's GDP and to 13% of the country's export earnings. With over 45 million people employed directly, the textile industry is one of the largest sources of employment generation in the country.

The innerwear market (comprising of the innerwear and the comfort wear market) was estimated to be worth 28,133 crores and is expected to grow at CAGR of 13 percent over next five years and reach ₹ 51,913 crores by 2020.

Looking ahead, we expect growth in the innerwear market to be driven by broad based consumer trends in the form of rising discretionary spend, growing number of mid-high income house hold and rising urbanization.

The innerwear industry in India holds immense growth potential and it is evident from the entry of large international brands in the Indian market in the last few years. The Indian innerwear market continues to be underpenetrated and thereby holds immense business opportunities. Provided the positive macro and demographic fundamentals, the innerwear market has a favorable demand growth outlook over the medium-to-long term. The Indian innerwear market is expected to witness expansion in the near future. However, lesser product portfolio and high costs of brand building are expected to be the challenges for this sector. Brand sensitivity is the major trend in the Indian innerwear industry.

Since the last few years, Indian brands showcased new designs and styles to woo the new age Indian women. The focus was mainly on the width of the product range. Men's and women's innerwear began to be sold through a variety of retail formats such as Exclusive Brand Outlets (EBO), Large Format Stores (LFS) and departmental stores. LFS, with shop-in-shop concept, have carved a niche by showcasing the entire product range.

Innerwear has graduated from being just a functional category to a category that offers additional fashion quotient. It is shifting from a price sensitive category to a brand sensitive category. Exclusive brand stores are explored when looking for depth in styles and variety in colors.

On the basis of product pricing, the innerwear market is further divided into super-premium, premium, medium, and economy segments. Due to increased awareness, the increase in number of brands, and rising discretionary spending, all segments have registered growth. Foreign brands have brought in variety through international styles and fabrics. Indian women are also willing to spend higher-than-before amounts on innerwear. This has provided an exponential boost to premium and super-premium innerwear brands.

OPPORTUNITIES AND THREATS

Opportunities:

For the apparel industry in general and our market in particular:

- More organized retail. Better consumer retail experience
- Increasing fashion consciousness and consumers becoming more aspirational, discerning and brand savvy
- The factors that determine consumption, education, occupation, urbanization, rise in nuclear families moving in a positive direction
- Increasing urban women population and women corporate workforce
- Increasing brand consciousness and spending on kids
- Higher disposable income
- Increasing online retail

Threats:

Many major international apparel brands have commenced operations in India realizing that Indian markets are likely to emerge as one of the largest market in the world in the next few decades. Competitive intensity is expected to sustain high.

RISKS AND CONCERNS

The Company has robust risk management procedures to identify and evaluate risks on an ongoing basis. The identified risks are integrated into the business plan and a detailed action plan to mitigate the identified business risk and concerns is put in place. The key risks and concern identified by the company and its mitigation plans are:

Availability and Rising Cost of Labour:

The industry is growing at a fast pace, in a highly labour intensive sector and demand for experienced and trained manpower is outstripping supply. The ability to retain existing talent and attract new talent assumes crucial importance. The Company has created long term plans with the objective of motivating employees to create a sense of “belonging” and a ‘feel good’ environment. The Company has set up robust training centers at various units where newcomers to the labour force receive structured training.

Increase in input and brand-building costs:

The availability of raw materials at reasonable rates is one of the main concerns of the company. However the company is confident that increases in raw material cost, if and when they occur, can be passed on to consumers because of the strong pricing power of its brands. The company is also aggressively taking steps to monitor and improve productivity, which will mitigate the impact of material cost increases to some extent. The Company is also conscious that in the Media environment of exploding media vehicles and fragmented audiences, the challenges for achieving Brand Reach and delivering effective communication are rising disproportionately. The Company is taking steps to plan and execute media campaigns with higher efficiency and continue to achieve brand salience.

HUMAN RESOURCES

Your Company fully values the Human capital; it deploys and credits its success to them. It has been the consistent endeavor of the Company to create a congenial and challenging working atmosphere wherein every employee can develop his own strength and deliver to his full potential.

During the year under review, industrial relations in the factory were cordial and pro-active and all employees and the Union supported productivity and process improvement measures undertaken at all the functions of the Company. Their unstinted co-operation has enabled the unit to achieve continuous growth, both quantitatively and qualitatively. Your Company continued to maintain excellent industrial relations with all its employees and independent job work firms. Adequate safety and welfare measures are in place and your Company will continue to improve the same on ongoing basis.

As of 31st March, 2017, the Company had 1,670 employees on its roll.

FUTURE OUTLOOK

The global economic climate continues to be volatile, uncertain and prone to geo-political risks. Weak consumer sentiment and low commodity prices are expected to affect global growth adversely.

Your Company has achieved a significant growth and has been constantly following emerging market trends and has accordingly from time to time revamped its marketing strategies and product portfolios. The Company is trying to come up with some new products and ranges of inner wears according to changing consumer needs and demand.

Your Company has taken a step to evolve in the super-premium segment of innerwear. India is expected to perform better, aided by improving macroeconomic fundamentals. While currently inflation is benign, upside pressures on inflation from the vagaries of monsoon or sudden changes in the rupee, could have a significant bearing on inflation.

FMCG markets are expected to grow. While consumer confidence has increased, this has not yet translated into significant improvement in FMCG market conditions. There are a few green shoots in market growths; however, uncertain global economic

environment, inflation and competitive intensity continue to pose challenges. Your Company, with its brands, talent and investment in capabilities, is well placed to benefit disproportionately from this opportunity.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

ANNEXURE 'B'

To The Independent Auditor's Report Of Even Date On The Financial Statements Of Lovable Lingerie Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Lovable Lingerie Limited ("the Company") as of 31st March, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls.

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depends on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
