

# Installation Instruction

## • Surface Mounting Kit

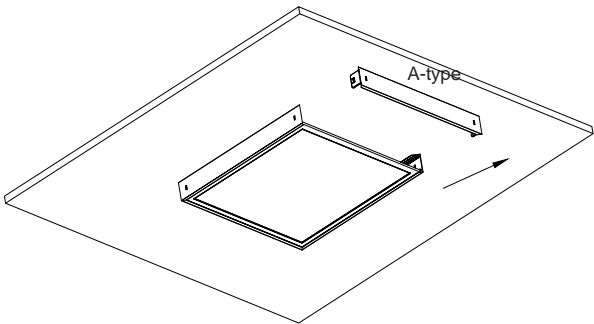

1. Connect **A-type** and **B-type** frames with plastic connectors. Assemble the entire Surface mount frame.

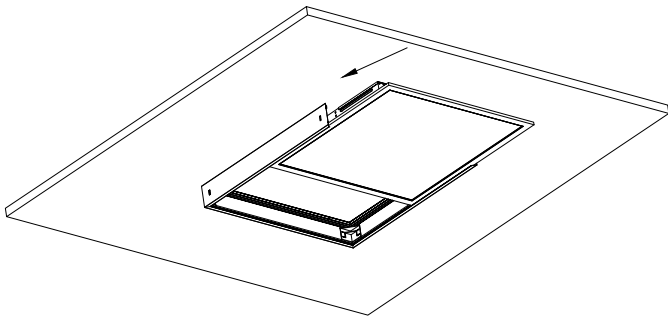

2. Attach the square frame as a positioning ruler to the ceiling, mark the screw holes, and secure the frame to the ceiling.

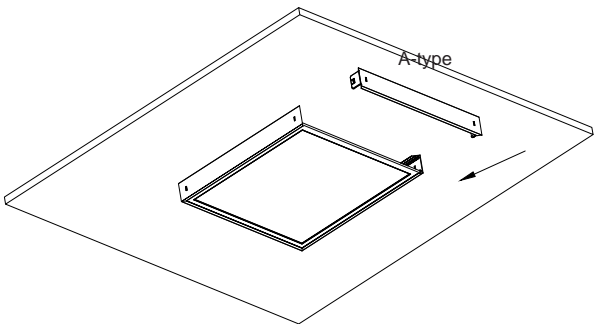

3. Remove an A-type frame.

4. Make wiring connection to the main power according to local code and insert the fixture into the frames.

5. Replace the rest A-type frame into the slots, make sure it get locked tightly by connectors.

6. Installation is completed. Fixture is ready to power on.
