

SITEBUDDYZ®

FLUSH JOINTS™

USER GUIDE

Congratulations!

Thank you for purchasing the Sitebuddyz Flush-Joints kit.

We hope you enjoy using the product and it helps you complete your job more efficiently and to a higher standard.

We'd love to hear what you think – please email info@sitebuddyz.com or leave a review on our site.

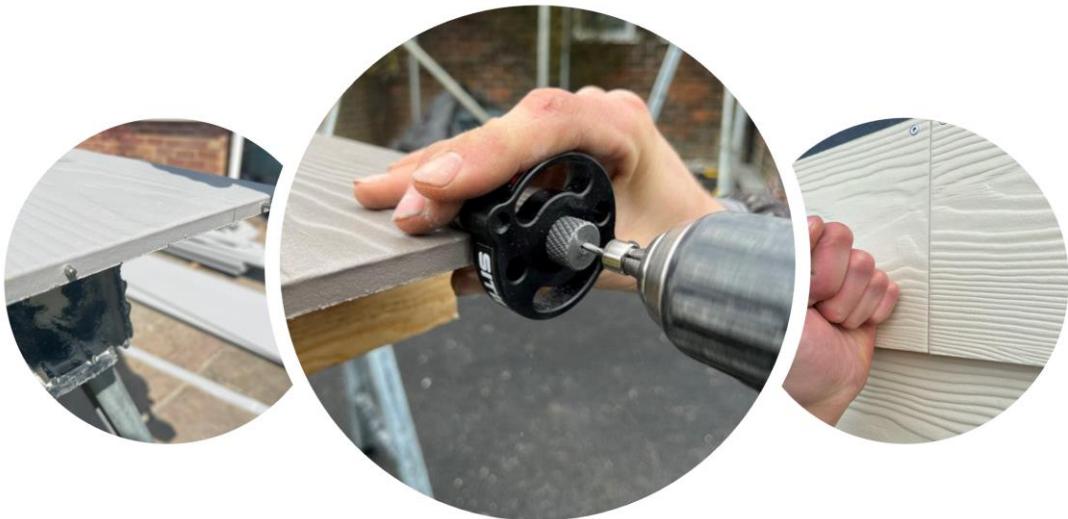

Introduction

Flush-Joints is a precision drilling jig that allows you to create an 'endless board' by allowing multiple boards to be butt-joined before fitting.

Some of the benefits of using Flush-Joints include:

- No more guesswork - perfectly centred holes and adjustable depth
- Produces stable, reliable and repeatable joints every time and future proofs against storm damage
- Avoids board movement, gaps and joint shadows which spoil overall look
- Using Flush-Joints, fewer boards need cutting to length and customers report a reduction in wastage and off-cuts of 15%

Flush-Joints adapts to any thickness of board from 8-40mm and is suitable for use with both timber and fibre cement boards. See guidance below on using the appropriate drill bit for the material you are working with.

Specification

Your complete Flush-Dowels set includes:

- 1x wood bit 3mm
- 1x wood bit 6mm
- 1x 2mm carbon-tipped drill bit long-life fibre cement drilling (recommended for 9mm James Hardy board)
- 1x 3mm drill bit (recommended for 11mm Cedral fibre cement weatherboards)
- 1x dowel jig guide with 2mm, 3mm and 6mm drill guide bushes
- Starter pack of 50 stainless steel Flush dowels
- Protective foam-fitted storage case with storage solutions for dowels and drill bits.

Specifications

- Colour: Black
- Material: Aluminium alloy, steel
- Specification of drill bushes: fits 2mm, 3mm, 6mm
- Drill bits to suit size per guide bush
- Size of Protective case: 235mm x 155mm x 50mm

Health and safety

Always take care when drilling and follow your power tool manufacturer's instructions.

When drilling:

- Wear safety eye protection while drilling.
- Keep drill or air vents clear to maintain adequate ventilation
- Keep drill bits sharp – our drill bits are made from extremely tough and durable materials to last longer, but replacements are available at sitebuddyz.com

Flush-Joints should only be used for the purpose for which it was intended.

Environment

Please dispose of any surplus packaging supplied with this product in an environmentally friendly way.

This product should not be disposed of in household waste bins but through your local recycling facilities.

User Guide

1

Place the Flush-Joints drilling jig over the end of the board

2

Rotate it until the outer edges of the jig meet the top and bottom surface of the board

3

This will ensure the jig finds the exact centreline of the board every time

4

Fit the appropriate drill bit for the material you are working with and use the adjustable stopper to control the desired drilling depth for your dowels (see specifications above)

5

Insert the stainless steel dowels supplied with the kit into the hole. These dowels then mate with the hole in the other board to create a single board with a shadowless butt-joint that won't move.

Guarantee

Sitebuddyz Ltd guarantees that for a period of 12 months from the date of purchase the enclosed product will be free from defects in materials and workmanship.

Sitebuddyz Ltd agrees to provide for the repair or at its option, the replacement of a defective product. Sitebuddyz Ltd reserve the right to replace defective parts, or the product with new or refurbished items. Items that are replaced become the property of Sitebuddyz Ltd.

To benefit from this guarantee, any fault that occurs must be notified to Sitebuddyz Ltd within one year from the date the product was purchased. Proof of purchase, such as a receipt or invoice, must be provided.

If the product is exchanged, the replacement will be covered by the unexpired portion of the original guarantee.

In the unlikely event of the product requiring repair, please contact your supplier for advice in the first instance or Sitebuddyz Ltd via info@sitebuddyz.com.

This guarantee shall only apply to faults that are due to inferior workmanship or materials. It does not cover faults or damage caused by accident, misuse, fair wear and tear, neglect (in particular to threaded parts), tampering with the product, or repair other than by Sitebuddyz Ltd or appointed agent.

This product is intended for domestic and trade use and the guarantee applies equally.

No person has the authority to vary the terms and conditions of this guarantee.

This guarantee is offered in addition to your statutory rights, and does not affect these rights in any way.
