

FUCHS SILKOPEN AEROSOL

Graphited penetrating spray

Description

FUCHS SILKOPEN AEROSOL is a product from the FUCHS Lubricants (UK) range of industrial aerosol packaged products. It produces a jet spray of penetrating fluid for effective, quick release of seized and corroded metal parts. Suitable for use on fasteners, studs, valves, couplings etc.

It is intended primarily as a dismantling aid to help free off seized or corroded components. FUCHS SILKOPEN AEROSOL contains powerful solvents and dewatering aids to enable the fluid to "creep" into the most confined spaces.

Directions for Use

Shake the can thoroughly before use.

Hold in an upright position, spraying directly onto the component surface from a distance of 8-12 inches.

The highly directional button ensures accurate positioning of the lubricant.

Always ensure any guarding is in place when treating moving equipment.

Re-apply as required.

Caution

- NOTE - May affect certain rubbers and plastics
- Pressurised container
- Protect from sunlight and do not expose to temperatures exceeding 50°C
- Do not pierce or burn, even after use
- Do not spray on a naked flame, or any incandescent material

Advantages/Benefits

- Large 500ml aerosol can
- Excellent creep penetration
- Protects from further corrosive attack
- Lubricates threads for dismantling
- Effectively cuts through dirt, grime, rust and scale
- Repels water
- Contains no CFC propellants - ozone friendly

NOTE

Follow the safety information printed on the cans to ensure safe application.
