

SilentAire 12" Universal Ceiling Mount System

Our bipolar ion generating technology mimics air ionization that takes place during thunderstorms, waterfalls, and crashing waves on the beach, releasing positive and negative ions into indoor air. This powerful technology helps air purification by producing oxygen ions that react with pollutants, making the air cleaner and safer to breathe. SilentAire 12" universal ceiling mount system is an ion generating unit to help air purification from ceiling to the space. It can optionally have lighting function for multi-functional experience. The unit covers up to 135 square feet at the height of 8 feet.

SPECIFICATIONS

MODEL NUMBER	SAFM-UCM-R12-PL-MV-WH
INPUT VOLTAGE	120-277V, 50/60Hz
POWER CONSUMPTION	5Watts
NOISE	30dB
MATERIAL & FINISH	Matte White finish
DIMENSIONS	3.1" x 12" (80 x 305 mm)
UNIT WEIGHT	3.04 lbs
AIR FLOW	18CFM
RATED LIFE	50,000 hrs

SUGGESTED ROOM SIZE	135 sqft per fixture
CONSTRUCTION	Durable plastic housing
LOW TEMP / MAX TEMP	-20o C (-4° F) / 45° C (113° F)
INSTALLATION	Quick installation into junction box. Recommended 8ft mounting height. System can hold any standard 3.5/4" J-box compatible ceiling flush or semi-flush mount fixture up to 22lbs
APPLICATIONS	Residential, bars, grocery
CERTIFICATION	ETL, cETL, FCC, CARB compliance, UL Damp

DIMENSIONS NOT TO SCALE
