

CHALLENGER

VALVES AND ACTUATORS

**CAPABILITY
STATEMENT**

COMPANY OVERVIEW

INTRODUCTION

Challenger Valves is a leading manufacturer, supplier and distributor of valving and actuation, providing products and solutions to the water, power, mining, irrigation and general industries. We stock a wide range of products in various materials including ductile iron, stainless steel and bronze to handle a wide range of industrial applications. Challenger Valves are now the authorised representatives for Cla-Val Control Valves and for HKC Automation products including a world-leading range of pressure reducing, pressure sustaining and relief, altitude and tank filling valves, and pneumatic and electric actuation products.

The company head office is located in Shepparton, north of Melbourne in central Victoria, with a 2400m² purpose built facility, which includes production, storage and testing. The commitment by the directors to re-invest profits back into the company demonstrates Challenger's commitment to its customers, employees and long term investment in the Australian market.

Challenger Valves also operate branches in Brisbane, Perth and Newcastle, supporting an Australia wide distributor network.

HISTORY

Established in 1984 Challenger Valves and Actuators has been providing high quality product lines of performance and reliability for more than 30 years, backed by a professional team delivering superior service and cost effective solutions to our clients.

QUALITY

Challenger Valves provides in house testing and distributes a range of products that meet or exceed the highest Australian and International Standards, many of which carry the coveted Australian Standard Mark. Customer testimonials are available on request. Challenger are an ISO9001 accredited company.

OH&S

Challenger Valves management team are committed to ensuring the health, safety and welfare of its employees, visitors and contractors by adhering to all statutory requirements.

NATIONAL CODE OF PRACTICE

Challenger Valves is a compliant participant in the National Code of Practice for the Building and Construction Industry, details available upon request.

CODE OF CONDUCT

Challenger Valves requires as a condition of employment all staff observe and adhere to the highest possible standards of behaviour, ethics and integrity as outlined in the company code of conduct.

EQUAL OPPORTUNITIES

All employees of Challenger Valves are entitled to equal opportunities. Employees have the right to be treated with respect and dignity without discrimination or prejudice. Anti-discrimination legislation operates in the workplace ensuring all staff members have access to a range of jobs, promotions, training and the receipt of "equal treatment".
