

JA, WOL's FRIENDLY FIBER VILLAGE

Crafters, Designers, Teachers & Textile Craft Business owners are the inhabitants of our Friendly Fiber Village.

Welcome to our friendly community's Town Hall. Your journey in the community will begin here this is where you'll find your way around the community.

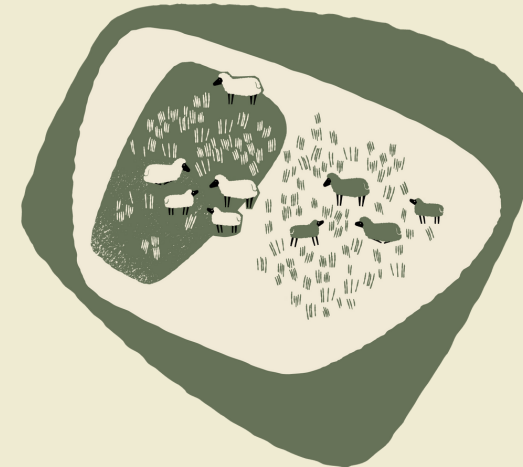

In the communal gardens we come together to plant, grow, harvest and sell. Metaphorically, though we also have a group that is all about actual (veggie) gardens. (over at the sheepies to the right 🐑).

The Village Square is the central hub of our Friendly Fiber Village, a central space, buzzing with activity. Where the core aspects of the community are gathered in a stream of information so you can get easy and quick access to what is happening.

Groups and Guilds are spaces that offer connections and information that might not be of interest to the whole community.

From Feeling Insecure to Confident, in running your business or in your craft practice, the Ja, Wol Community hosts a series of Transformational Paths you can follow.

Courses and Workshops help members to get deeper knowledge of certain aspects of their journey.
