Nose

The AH-1Zs flown by the Royal Bahrainian Air Force and the Czech Air Force have doors that do not have the visible rivets found on most AH-1Zs.

AH-1Zs flown by the Pakistan Army, RBAF and the CZAF have markings on the tail rotor blades, they have also been seen on some Marine Zulus.

Stencil placement

Notes:
 The main rotor blades are 36-495 Light Gray on the entire top surface, and the bottom surfaces are black. The leading edges of the rotor blades are a bare metal color.
