REVOLUTIONARY DESIGN

ENJOY SLEEPING HOW IT WAS MEANT TO BE

03

DUAL HEIGHT FOR ULTIMATE COMFORT

ADJUST THE PILLOW
180° TO FIND YOUR PERFECT SLEEP
POSITION

UNPACKING & EASY CARE INSTRUCTIONS HOW TO OPEN AND ENJOY YOUR NEW ZENBLOK

1. Open Plastic

2. Unroll the Pillow

3. Allow 10-20 minutes
for the memory foam
to take shape

4. Choose your sleep
position, sink in,
and doze off

Please note: Allow your body to adjust to your new ergonomic pillow. Everyone is different; knowing your desired sleep position usually takes 1-2 weeks.

Helpful Tips to Enjoy Your New Pillow

Opening the plastic – Your new pillow arrives wrapped up in a tube. This compressing helps with shipping, protection from humidity or cold and also preserves the foam for transport. It is common for our factory to compress foam before shipping. Please open the plastic carefully to avoid any damage to the pillow or pillowcase. The pillow will take full density and shape depending on climate and altitude this can take a few minutes or a few hours. Usually after 24 hours it is full shape and density firmness.

Polyurethane – Our memory foam pillows use only the highest quality memory foam. There might be a slight odor upon opening. Sleep peacefully as this leftover odor is not harmful. This sometimes happens since the pillow is sealed and packaged after making it to protect the materials inside. If you are sensitive to the smell open the zipper and air out the pillow up to 1-3 days.

Please note – This product is not a medical product. If you are using this for rehabilitation, please consult a medical doctor for medical advice.
