

DUSK STRETCH SATIN 7 OZ

Existence[®] Ethic

is a range of Vegan Leather products made out of cotton and cotton blends by using bio-degradable resins to achieve a look and hand of leather.

One of the main benefits of vegan leather is that it is cruelty-free. Traditional leather production involves the use of animal hides, which raises concerns about animal welfare and sustainability. In contrast, vegan leather is made without harming animals, making it a more ethical choice for consumers who care about animal rights.

As the fashion industry continues to prioritize ethical and sustainable practices, vegan leather is becoming a popular choice for those who want to make a positive impact with their purchases.
