

# How Many Flowers Per Bunch?

## Stem Count (1, 10, 12, 25) vs. Grower's Bunch (Small, Medium, Large):

Stem count is self-explanatory: if you order roses sold as 25 stems, you'll receive 25 roses. Grower's Bunches are the full size packaged flowers that flower growers produce. Because these are packaged by weight, they may include anywhere from 3 to 13 stems per bunch. Keep in mind 5-10% of your stems will be imperfect.

FOCAL FLOWERS	FILLER FLOWERS	ACCENT FLOWER	GREENERY
