

## Instrucciones para apliques de pared pequeños

<p><b>1. Instalar el montaje del aplique de pared</b></p>  <p>Wires Exiting Wall</p>	<p><b>2. Pasar los cables por la arandela</b></p> 
<p><b>3. Conectar los WAGO dentro de la base</b></p>  <p>x3</p>	<p><b>4. Ajustar los tornillos prisioneros</b></p> 
<p><b>5. Quitar la cubierta de vidrio y colocar la bombilla</b></p> 	<p><b>6. Colocar la pantalla Claremont en el cuerpo de la lámpara</b></p> 

## Instrucciones para apliques de pared pequeños

7. Usar el anillo de la pantalla para asegurarla	8. Usar el tornillo prisionero para ajustar la altura de la pantalla
 <p>The diagram illustrates step 7. It shows a lampshade with a ring at its top edge. A separate ring is shown above the lampshade with a curved arrow indicating it should be slid onto the top edge of the lampshade. Below the lampshade, the mounting arm and base are shown, with a small black ring at the top of the stem where the lampshade will be attached.</p>	 <p>The diagram illustrates step 8. It shows the lampshade mounted on the wall. A locking screw is shown being inserted into a hole on the side of the mounting arm to adjust the height of the lampshade. A dashed line indicates the vertical position of the lampshade.</p>
