

The easiest way to find your ring size is to measure the circumference of the finger or the internal diameter of an existing ring that fits you well.

To Measure Your Finger:

- Step 1: Grab a tape measure, string or strip of paper.
- Step 2: Wrap it around the finger you'll wear the ring on and mark the point of overlap.
- Step 3: Lay the string or paper used to measure on a ruler (provided below) and note the measurement.
- Step 4: Use the table provided to determine your ring size.

To Measure an Existing Ring:

- Step 1: Choose a ring that fits well.
- Step 2: Measure the interior diameter of the ring in centimeters (cm).
- Step 3: Use the table provided to determine your ring size.

Note: If you are in between sizes, we recommend sizing up. We also recommend sizing up by 1/2 a size for thicker rings.
