NOZZLE

Offer your customers a balance of products from each of our three ranges to ensure quality options for each and every consumer-no matter what motivates them.

Macallan

Increasing the handle feeling of texture and with a non-slip effect. The Macallan Estate maintains a natural harmony with the rich ecology of the surrounding hills.

Carbon Fiber Texture

Increasing the handle feeling of texture and with a non-slip effect. The unique weaving pattern of carbon fiber texture can be seen in the appearance.

Revolver

Increasing the handle feeling of texture and with a non-slip effect. When watering your own backyard garden, you are also soaring in your own colorful world.

Nozzle-Macallan

1 The Elegant Lines of the Macallan Whiskey:

Nestled on the banks of the River Spey, The Macallan Estate maintains a natural harmony with the rich ecology of the surrounding hills. The highly recognizable Macallan bottle has a concave V-shaped curve, extending from both sides of the handle to the neck of the nozzle, which illustrates our love for nature and our desire to care for our home.

2 Spray Pattern Rotate Easily:

Eight well-labeled settings easy to rotate the clearly labeled pattern selector to the spray.

3 Spray Pattern Knob:

The appearance of the knob is surrounded by a dense hill-like shape, which symbolizes American white oak. The climate in the growing area is relatively humid and cold, and the wood grain is denser. The knob needs to frequently switch between 8 types of water patterns, and the finely arranged patterns can provide more convenient operability.

4 Texture on The Cover of the Handle:

Matching the distance between fingers, it has a wider grain design, which symbolizes Spanish red oak. The red oak grown in the hilly area of northern Spain, due to the abundant rainfall and mild winter climate, the wood grain is loose, suitable for the design on the inside of the grip that emphasizes grip comfort.

NOZZLE

Offer your customers a balance of products from each of our three ranges to ensure quality options for each and every consumer-no matter what motivates them.

Macallan

Increasing the handle feeling of texture and with a non-slip effect.

91182 Metal 8-Pattern Thumb Control Nozzle

8 Pattern	Height: 6.5 in	Length: 4.72 in	Width: 2.36 in	Weight: 11.89 oz	Material: Zinc, TPR, ABS	Thumb Control
------------------	-----------------------	------------------------	-----------------------	-------------------------	---------------------------------	----------------------

Metal body

Humanized Design

- 8 watering pattern for every watering need.
- Easy to use pattern dial makes you switch between different modes more convenient
- Great for reaching hanging baskets and shrubs and those hard to reach areas.
- Thumb control and the soft TPR handle with an ergonomic design offers a comfortable experience.
- Heavy duty zinc alloy metal assures a longer service life.
- For cold water outdoor irrigation use only

91132 Metal Adjustable Thumb Control Nozzle

Adjustable	Height: 6.1 in	Length: 4.33 in	Width: 1.5 in	Weight: 11.89 oz	Material: Zinc, TPR, ABS	Thumb Control
-------------------	-----------------------	------------------------	----------------------	-------------------------	---------------------------------	----------------------

Metal body

Humanized Design

- The adjustable tip provides cleaning options from a fine mist to a powerful jet stream.
- Humanized Design -ergonomically designed thumb control and non-slip TPR handles for added comfort when watering.
- The pistol grip front trigger is easy to squeeze and can be locked into place with the included buckle for continuous spraying.
- Flow control lever for maximum control and watering flexibility.
- Heavy duty zinc alloy metal.
- For cold water outdoor irrigation use only.

81182 Metal 8-Pattern Thumb Control Wand

8 Pattern	Height: 6.5 in	Length: 4.72 in	Width: 2.36 in	Weight: 11.89 oz	Material: Zinc, TPR, ABS	Thumb Control
------------------	-----------------------	------------------------	-----------------------	-------------------------	---------------------------------	----------------------

Metal body

Humanized Design

- 8 watering pattern for every watering need.
- Telescoping long wand from 19 - 24"
- Great for reaching hanging baskets and shrubs and those hard to reach areas.
- Thumb control and the soft TPR handle with an ergonomic design offers a comfortable experience.
- Heavy duty zinc alloy metal assures a longer service life.
- The real rain shower spray wand nozzle centralized the water flow to where we want water to be.

81382 Metal 8-Pattern Front Trigger Wand

8 Pattern	Height: 6.5 in	Length: 4.72 in	Width: 2.36 in	Weight: 11.89 oz	Material: Zinc, TPR, ABS	Front Trigger

WATERING TIMERS

Watering timers takes care of watering early in the morning or on the go. You decide when and how often to water your plants - and then the watering control system takes care of watering your garden.

Rotatable Screen Timer

79101

Dial Timer

79100

Water Flow Meter

79103

Large Screen Outlet Timer

79102

Digital Timer

79201

Water Timer- The Garden Steward

- 1 Water Inlet Filter:**
A beautiful garden depends on a clean water source. The filter at the water inlet can check the quality of the water source and ensure the water quality.
- 2 Rotatable Screen:**
With a wide range of rotation, you can view the screen without bending over.
- 3 Delay Setting in Rainy Days:**
Timed watering is not uncommon. Watering at the right time not only saves time, but also saves water.

WATERING TIMERS

Offer your customers five of our products to ensure quality choice for every consumer – whatever their motivation.

Timer

Watering timers takes care of watering early in the morning or on the go. You decide when and how often to water your plants – and then the watering control system takes care of watering your garden.

79100

Dial Timer

Height: 5.51 in	Length: 4.53 in	Width: 2.87 in	Weight: 10.34 oz	Material: ABS, TPR, Rubber, PCB
-----------------	-----------------	----------------	------------------	---------------------------------

- Easy to use and user friendly.
- Working water pressure : 10 to 100PSI.
- Working temperature : Do not exceed 120°F and keep from freezing.
- Easy to use mechanical dial to set watering duration from 1 to 360 mins.
- Rain delay function : 1 to 7 days.

79101

Rotatable Screen Timer

Height: 5.31 in	Length: 4.72 in	Width: 2.2 in	Weight: 13 oz	Material: ABS, TPR, Rubber, LCD, PCB
-----------------	-----------------	---------------	---------------	--------------------------------------

- Easy to turn the screen as the angle you want, users do not need to squat down to program the product.
- Remove / prevent getting dust by rotating the screen.
- The rotation range of the screen can turn up to 90°, and down to 36°.
- Working water pressure : 10 to 100PSI.
- Working temperature : Do not exceed 120°F and keep from freezing.
- Watering duration rang from 1 to 360 mins.
- Rain delay function : 1 to 7 days.

79201

Digital Timer

Height: 5.5 in	Length: 4.53 in	Width: 2.87 in	Weight: 10.34 oz	Material: ABS, TPR, Rubber, LCD, PCB
----------------	-----------------	----------------	------------------	--------------------------------------

- Easy to use and user friendly.
- Working water pressure : 10 to 100PSI.
- Working temperature : Do not exceed 120°F and keep from freezing.
- Easy to use mechanical dial to set watering duration from 1 to 360 mins.
- Rain delay function : 1 to 7 days.

79102

Large Screen Outlet Timer

Height: 5.3 in	Length: 4.84 in	Width: 2 in	Weight: 11 oz	Material: ABS, TPR, Rubber, LCD, PCB
----------------	-----------------	-------------	---------------	--------------------------------------

- Easy to read and operate with the large LCD design.
- Working water pressure : 10 to 100PSI.
- Working temperature : Do not exceed 120°F and keep from freezing.
- Watering duration rang from 1 to 360 mins.
- Rain delay function : 1 to 7 days.

Water flow meter

79103

Water Flow Meter

Height: 3.94 in	Length: 2.2 in	Width: 1.57 in	Weight: 3.5 oz
-----------------	----------------	----------------	----------------

- Easy use with simple function.
- This meter can track both single-use and total water consumption.
- Can see the different units, Gallon and Lite.
- For cold water outdoor irrigation use only.

Material: ABS, TPR, Rubber, LCD, PCB

HOSE CONNECTOR

Offer your customers four of our products to ensure quality choice for every consumer – whatever their motivation.

Hose Splitters and Valves

GOGREEN provides you garden hose shut off valve.

61104 Zinc One-Way Garden Hose Shut off Valve

Basic Connector	Height: 3.35 in	Length: 2 in	Width: 1.65 in	Weight: 4.6 oz	Material: Zinc, TPR, ABS	Valve
------------------------	-----------------	--------------	----------------	----------------	--------------------------	-------

Metal Body

No Leaking

- New design of Carbon fiber texture technique.
- Heavy duty zinc alloy metal.
- For cold water outdoor irrigation use only.

61004 Zinc Bend to Garden Hose Shut off Valve

Gooseneck Connector	Height: 4.33 in	Length: 2.13 in	Width: 1.65 in	Weight: 5.5 oz	Material: Zinc, TPR, ABS	Valve
----------------------------	-----------------	-----------------	----------------	----------------	--------------------------	-------

Metal Body

No Leaking

- New design of Carbon fiber texture technique.
- Heavy duty zinc alloy metal.
- For cold water outdoor irrigation use only.

61204 Two-Way Garden Hose Shut-off Valve

Y Connector	Height: 3.54 in	Length: 4.33 in	Width: 2 in	Weight: 8 oz	Material: Zinc, TPR, ABS	Valve
--------------------	-----------------	-----------------	-------------	--------------	--------------------------	-------

Metal Body

No Leaking

- New design of Carbon fiber texture technique.
- Heavy duty zinc alloy metal.
- For cold water outdoor irrigation use only.

61404 Four-way Garden Hose Shut-off Valve

Manifold	Height: 6 in	Length: 4.4 in	Width: 2 in	Weight: 22 oz	Material: Zinc, TPR, ABS	Valve
-----------------	--------------	----------------	-------------	---------------	--------------------------	-------

Metal Body

No Leaking

- New design of Carbon fiber texture technique.
- For cold water outdoor irrigation use only.

Watering

Hose- Hybrid Hose & Sprinkler & Soaker Hose

S1

S2

S3

Sprinkler & Soaker Hose

52200

H1 Extremely Elastic Hose:

The material used combines polyurethane and PVC, which makes the hose extremely elastic, and can freely shuttle between trees full of obstacles and on undulating land.

H2 No Memory Effect:

Even if the hose is severely squeezed or entangled, it will not be deformed, which can ensure that the hose will still maintain a perfect curvature when it is used next time.

H3 Wear-Resistant Skin:

The wear-resistant dark skin is like an African rock python, which is enough to move forward without hindrance on the soil covered with sand and stones, showing the quality of the scale-like skin.

H1

H2

H3

5/8" x 50FT Hybrid Hose

52200

HOSE

GOGREEN provides you all different kind of hoses, such as high elastic hose, bungee hose, expandable hose.

Hybrid Hose

52200 5/8" x 50FT Hybrid Hose

-  **500 PSI**
Burst Strength
-  **High Strength Wined**
-  **Lead Free**
-  **Anti Kink**

Length: 50 ft	Weight: 109 oz	Material: Tube: Polyurethane + PVC Fittings: Aluminum Grip: ABS+TPR
----------------------	-----------------------	---

- Male & female swivel grip - easily connects to spigots and attachments. The swivel action ensures that either end can be easily attached and the hose extended without twisting, so sprinklers lie flat and your work is more efficient.
- Technology - combines Polyurethane and PVC, making the hose easy to maneuver around trees, bushes or other obstacles.
- Forged aluminum titanium coated couplings - lead free and crush proof!
- Anti-kink technology - won't kink under pressure and has zero memory.
- Unmatched quality - abrasion resistant outer cover and crush resistant titanium coated forged aluminum fittings, with a 500 psi burst strength.

Garden Hose

54200 50FT High Pressure Hose

-  **600 PSI**
Burst Strength
-  **Rubber and Pvc**
-  **Wear Resistant Polyester**
-  **Anti-Rust**

Length: 50 ft	Material: Inner Tube: Rubber + PVC Outer Tube: 400*800D Polyester 30g/m(+/-2g) Fittings: Aluminum Grip: PVC
Weight: 57 oz	

- Female swivel fitting - easily connects to spigots and attachments. The swivel action ensures that either end can be easily attached and the hose extended without twisting, so sprinklers lie flat and your work is more efficient.
- 600 psi - high burst pressure.

Sprinkler & Soaker Garden Hose

58200 50FT Sprinkler & Soaker Hose

-  **Brass Fittings Rustproof**
-  **Soaker**
-  **2-in-1 Multifunction**
-  **Sprinkler**

Length: 50 ft	Material: Tube: PVC Fittings: Brass + ABS
Weight: 38 oz	

- 2-in-1 sprinkler & soaker; line up sprinkler, line down soaker.
- Versatile & gentle watering.

S1 Fluorescent Green Appearance:

Under the high-profile fluorescent green appearance, there is a gentlemanly delicacy hidden.

S2 Make the Barren Soil No Longer Dry Up:

When the pipeline outlet hole is placed upwards, it is a neatly arranged shower head; when the pipeline outlet hole is placed downwards, it is a trickle of infiltration water source. The two forms of watering modes present the same careful care.

S3 Wild Appearance, Gentle Nature:

Even if it is switched to the sprinkler mode, it still does not change its gentle nature, and the delicate and dense water flow will never hurt any grass.

Hose- Bungee Hose & Expandable Hose

1

2

Bungee Hose

56203

1 Flexible Bungee Hose:

When water flows through, the length of the hose expands to 3 times the original length of the hose, making watering an easy and fun job.

2 Confident But Not Complacent:

In order to avoid excessive expansion after water flows through, there is a natural latex inner tube as the last layer of protection to ensure product life.

Watering

Garden Sprinkler

-The Guardian Bird

1

2

1 The Guardian Bird:

Under the appearance of the cold mechanical bird, there is a heart that hopes to guard the garden all the time.

2 Patrol Responsibilities:

With the innovative gear automatic sprinkler, whether it is horizontal watering, vertical spraying or 360-degree surrounding watering, guardian bird will not miss any corner of the garden that needs water.

SPRINKLER

GOGREEN provides you Gear sprinkler, best sprinkler for large lawn, sprinkler service near me, best oscillating sprinkler, water sprinkler for plants, water sprinkler for lawn.

Hose Splitters and Valves

37100 **Auto Gear Sprinkler**

Height: 13.4 in	Length: 12.2 in	Width: 9 in	Weight: 12.3 oz	Material: Plastic base
-----------------	-----------------	-------------	-----------------	------------------------

 360°
 Save 70% Of Water
 Save 60% Of Time

- Innovation gear automatic sprinkler head.
- Automatic spray pattern covers the watering area evenly to maximize watering efficiency, even watering can save 60% of time and 70% of water compare to regular sprinkler.
- Freely adjust ranges/distance to adjust the water spraying area and distance based on user's preferences covered the water spraying area within the shortest time.
- Arbitrary angle can be obtained with 360 degree rotation.

39200 **Auto Gear Sprinkler With Aluminum Spike**

Height: 15 in	Length: 6 in	Width: 2.6 in	Weight: 12.3 oz	Material: Aluminum 3-way spike
---------------	--------------	---------------	-----------------	--------------------------------

 360°
 With 3-Way Plastic Spike
 Save 70% Of Water
 Save 60% Of Time

- Innovation gear automatic sprinkler head.
- Automatic spray pattern covers the watering area evenly to maximize watering efficiency, even watering can save 60% of time and 70% of water compare to regular sprinkler.
- Freely adjust ranges/distance to adjust the water spraying area and distance based on user's preferences covered the water spraying area within the shortest time.
- Arbitrary angle can be obtained with 360 degree rotation.

3 Hollow Design of the Base:

The guardian bird waters the turf day and night, and the turf returns with tolerance. The grass grows from the hollow of the guardian bird's base, firmly fixing the guardian bird and the grass. The guardian bird can finally get his wish and grow with the environment forever.

Garden tools

GARDEN PRUNER

Offer your customers a balance of products from each of our three ranges to ensure quality options for each and every consumer-no matter what motivates them.

Bypass Pruner

Bypass Pruner, also known as manual pruning shears or pruning shears, are a type of scissors used for plants. It is used to prune hard branches of trees and shrubs up to two centimeters thick. It is used in horticulture, tree cultivation, agriculture, flower arrangement and other fields that require fine environmental management.

Garden Scissors

Garden Scissors are manual shearing tools. They consist of a pair of metal blades, so that the sharp edges slide against each other when the handle is opened and closed with the opposite handle. They can be used to cut and harvest all kinds of small branches, such as tomatoes, apples, grapes, etc.

Ratchet Pruner

Ratchet Pruner are suitable for women with smaller and softer hands, and for pruning thicker stems on plants.

Length: 7.87 in	Material: - Blade: SK5 high carbon steel, fully heat treatment, non-stick coating.
Weight: 7.17 oz	- Handles: Forged anodized aluminum handle with PVC grips (two colors)

40210 6.7" Bypass Pruner

Length: 6.7 in	Material: - Blade: SK5 high carbon steel, fully heat treatment, non-stick coating.
Weight: 5.29 oz	- Handles: Nylon + fiberglass handle with TPR grip.

Garden Scissors

Garden Scissors are manual shearing tools. They consist of a pair of metal blades, so that the sharp edges slide against each other when the handle is opened and closed with the opposite handle. They can be used to cut and harvest all kinds of small branches, such as tomatoes, apples, grapes, etc.

40200 6.7" Garden Scissors

Length: 6.7 in	Material: - Blade: SK5 high carbon steel, fully heat treatment, non-stick coating.
Weight: 4.6 oz	- Handles: Nylon + fiberglass handle with TPR grip.

1 Effortless to Use :

The force feedback design allows the previous force to be fed back to the next force, helping the trimming work to continue.

2 Safety First :

The force feedback design also serves as a safety fastener when the blade is retracted, preventing the blade from accidentally injuring the user.

3 In Addition to Saving Effort, It Is Also Comfortable :

The thumb grip is made of soft plastic with a comfortable grip to reduce fatigue during long-term use.

GARDEN

Gear Transmission

We achieve to make the most effortless products by lower the mechanism's friction with the study of the maximum leverage theory, so the power end shear is completely transmitted at the force application end. The gear-drive mechanism saves 30% of force compared to general product.

LOPPER

Product Materials

We produce stable and highly ranking horticultural-related products with Japanese SK5 and high carbon alloy steel which is output from R&D Alliance by CSC in Taiwan. The main advantage of the high-carbon alloy steel is its wear resistance, making its life 1.3 to 1.5 times that of general high-carbon steel.

Blade Coating Process

Our blade is coated with PTFE, a non-stick technique, to have lowest friction coefficient, avoid oil stained, and become resistance to acid and alkali.

GARDEN LOPPER

A lopper is a type of scissors used to prune branches and twigs. It is similar to a pruning shear with a long handle. They are the largest manual garden shears.

Forged Bypass Lopper

Forged Bypass Lopper is used to trim branches and shrubs. The compound system allows the force to be doubled to make the product cut better.

Leverage Bypass Lopper

Quick and easy removal of dead wood with Leverage Bypass Lopper.

Hedge Clippers

Garden hedge shears, also known as hedge shears or shrub shears, are a type of gardening tool used to prune plants. They include cutting and trimming hedges or shrubs.

Long Reach Pruner

High pruning shears are pruning shears with long handles for pruning taller branches. They are used to pruning tall and thick branches.

Garden Looper

1 Effortless to Use:

Low-effort lever construction keeps pruning work going.

2 Non-Stick Blades for Uninterrupted Pruning:

The blades are Teflon-coated to always maintain a clean edge surface when pruning.

3 Press>Pull>Loose All-Round Trimming:

Retractable handle design, press-type fixed structure, can easily trim branches and leaves everywhere.

4 Comfortable and Easy-to-Grip Handle:

The comfortable PP soft material on the inside of the handle increases the grip comfort and reduces fatigue during pruning; the carbon fiber texture on the outside of the handle provides a significant anti-slip effect.

GARDEN LOPPER

A lopper is a type of scissors used to prune branches and twigs. It is similar to a pruning shear with a long handle. They are the largest manual garden shears.

— Forged Bypass Lopper

Forged Bypass Lopper is used for pruning branches and shrubs to remove dead wood quickly and easily. The compound system doubles the force and makes the product cut better.

40610 30" Forged Bypass Lopper

Length: 26.77 in	Material: <ul style="list-style-type: none"> • Blade: SK5 high carbon steel, fully heat treatment, PTFE non-stick coating. • Hook: S50C carbon steel, fully heat treatment, chrome plating. • Handle: Anodized aluminum tube with molded Nylonfiber grip.
Weight: 2.3 lbs	

SK5 Steel Forged Blade	Black Anodized AL Tube	Special Curved Blade Design	Dipping Grip
Function: HEAVY DUTY	Function: ANTI-RUST LIGHTWEIGHT	Function: PREVENT BRANCHES FROM SLIPPERY EASY-TO-USE	Function: NON-SLIP

40612 29.5" Forged Bypass Lopper

Length: 31.5 in	Material: <ul style="list-style-type: none"> • Blade: SK5 high carbon steel, fully heat treatment, grinding. • Hook: S50C carbon steel, fully heat treatment, grinding. • Handles: Anodized shaped aluminum tube with PP/TPR grips.
Weight: 2.73 lbs	

SK5 Steel Forged Blade	Black Anodized AL Tube	Special Curved Blade Design	PP+TPR Grip
Function: HEAVY DUTY	Function: ANTI-RUST LIGHTWEIGHT	Function: PREVENT BRANCHES FROM SLIPPERY EASY-TO-USE	Function: ERGONOMIC DESIGN

40611 28" Leverage Bypass Lopper

Length: 28 in	Material: <ul style="list-style-type: none"> • Blade: S50C carbon steel, fully heat treatment, PTFE non-stick coating. • Hook: S50C carbon steel, fully heat treatment, chrome plating. • Handles: Anodized shaped aluminum tube with PP/TPR grips.
Weight: 2.2 lbs	

Teflon Coating Blade	Black Anodized AL Tube	Special Curved Blade Design	PP+TPR Grip
Function: NON-STICK	Function: ANTI-RUST LIGHTWEIGHT	Function: PREVENT BRANCHES FROM SLIPPERY EASY-TO-USE	Function: ERGONOMIC DESIGN

40613 26-36.5" Leverage Bypass Lopper with Telescopic Aluminum Tubes

Length: 26-36 in	Material: <ul style="list-style-type: none"> • Blade: S50C carbon steel, fully heat treatment, PTFE non-stick coating. • Hook: S50C carbon steel, fully heat treatment, chrome plating. • Handle: Telescopic anodized aluminum tubes with button locks with PP/TPR grips.
Weight: 3 lbs	

Teflon Coating Blade	Dual Colored Anodized AL Tube	Stretchable Design	PP+TPR Grip
Function: NON-STICK	Function: ANTI-RUST LIGHTWEIGHT	Function: MEETS DIFFERENT NEEDS	Function: ERGONOMIC DESIGN

Garden Shears

1 Effortless to Use:
