Rotatable Screen Timer
rotary sprinkler timer

Feature

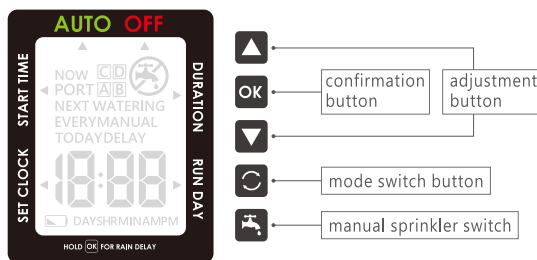

- Generally, outdoor faucets are installed at a lower height. Compared with ordinary Timers, the screen of this Timer can be rotated to adjust the angle of the panel. Users do not need to squat down to set the product, and can easily operate the panel by simply adjusting the angle of the screen.
- Angle can be adjusted to remove/prevent dust buildup on the panel.
- Swivels up to 90 degrees up and up to 36 degrees down.

Specification

- Batteries: Two AA (1.5V) alkaline batteries (not included)
- Withstanding water pressure: 10-100 PSI
- Withstanding temperature: Do not exceed 120°F, please avoid low temperature.

⚠ WARNING: FOR OUTDOOR COLD WATER USE ONLY
