About SmartSign2go

SmartSign2go is a cloud-based digital signage system built from the ground up for the non-technical end-user using the latest technology for Google Chrome Devices.

Why Choose Us?

We come from the installing dealer world so we know what you need!

This system is designed for maximum time-efficiency with appropriate features for small to medium-sized businesses and franchises.

Economical hardware and low-cost service plans are easy on your pocketbook.

We manage all the technical side of things using Google's powerful back-end systems so that you can focus on all the exciting things that you can play on-screen.

Most importantly customer support is our top priority so you'll have a great team to assist you, right here in the USA.
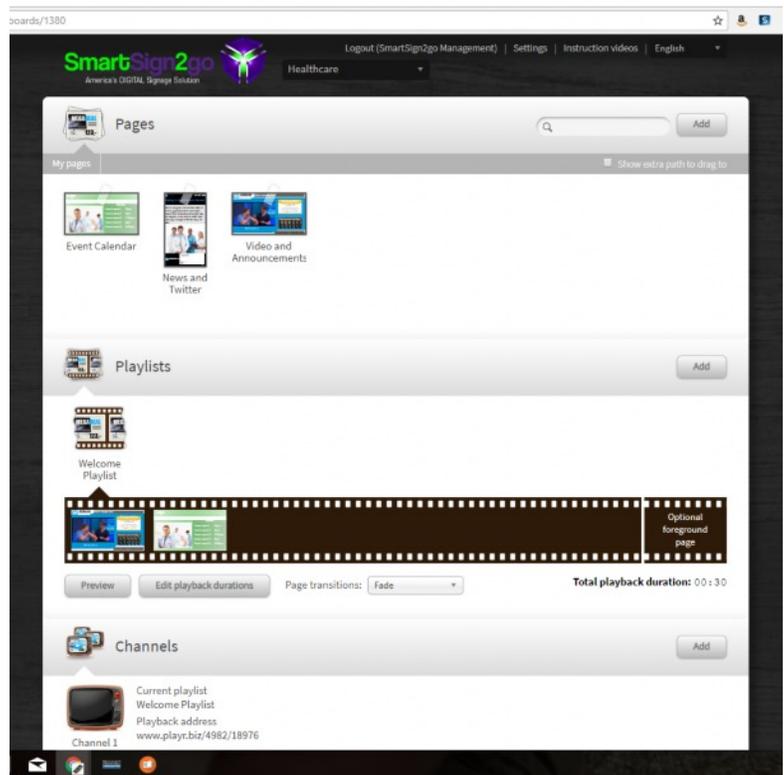

Amazing TV-Signage... in a SNAP!

Turn any TV into an impressive signage display in a fraction of the time and budget of legacy systems.

Managing your installed signs is EASY with SmartSign2go!

Lightening-fast scheduling and publishing tools, from any browser, even your PHONE!

SmartSign2go Cloud-based Dashboard

Create any design with ease right before your eyes.

What You See Is What You Get design tools with drag and drop ease

All your favorite apps, redesigned for signage with set and forget auto-update technology!

Box	Line	Text	Image	Slideshow	Video	YouTube	Vimeo	Streaming audio
News article	RSS feed	Monitoring	My data	Instagram	QR code	Maps & traffic	Web page

EXCELLENT PERFORMANCE

Switched to SmartSign2Go from a competing product and the difference is like night and day. As an added bonus, you can actually talk to a real person for support if necessary, in a timely manner instead of ping pong emails.

5 STARS

Product works as advertised and the help you get if and when you need it is excellent. I would reccomend SmartSign2Go to anyone looking for easy to set-up use digital signage. Thanks.

DEPLOYED QUICKLY!!!

I know there are many more features to discover but I basically deployed this in a matter of a few hours. I am replacing a sign that runs MagicInfo Express which is very difficult and untrustworthy. I also am replacing MVIX which too are hard to setup and keep going. This device was simple and easy. I even had to change the wifi which ended up being simple and easy. I simply just display the specials and now I have the ability to display each daily special automatically.
