Recipe

Make sure to wash your hands first!

Open the plastic packet, and take all of the contents out. Then, spread out the outer plastic wrapping with care to make the "Obento" on it.

Prepare a glass of water!

Cut off the triangle corner with scissors!

Make the broccoli!

Put the "broccoli-making powder" into the "broccoli-shaped" container. Then, add a cup of water from the triangle cup, and mix it using the fork.

※Wait 3 minutes until the mixture hardens.

Make the eggroll!

Put the "eggroll-making powder" into the "square and striped" container. Then, add a cup of water from the triangle cup, and mix it using the fork, and even the mixture out.

※Wait 3 minutes until the mixture hardens.

Make the octopus sausage!

Put the "octopus sausage-making powder" into the "octopus-shaped" container. Then, add a cup of water from the triangle cup, and mix it using the fork, even the mixture out.

※Wait 3 minutes until the mixture hardens.

Make the riceball!

1 Put the "riceball-making powder" into the "flat square" container. Then, add 2 cups of water from the triangle cup, and mix it using the fork.

※Be careful not to spill the powder outside of the tray.

2 Divide it into 2 halves. For the 1st half, use the panda illustration on the wrapping and make the ears and face, using the outline to adjust the sizes. For the 2nd half, shape it into a rounded triangle.

3 Put the "sesame" into the smallest square container and in the "panda" container. If the "seaweed-making powder" spills, wipe any into the round container, following the "→" marks. Put the rest in the same round container.

4 Lightly press the "riceball" onto the "sesame" in the "smallest square" container like in the picture.

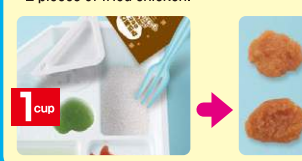

5 Lightly press the "panda's face" onto the "sesame" in the panda container. Coat the "panda's ears" in the round container with the "sesame". Finally put the ears on top of the panda's face!

Make the fried chicken!

Put the "fried chicken-making powder" into the flat square container. Then, add a cup of water from the triangle cup, and mix it using the fork, until it thickens. Divide it into 2 halves to make the 2 pieces of fried chicken.

Make the spaghetti!

Put the "spaghetti-making powder" into the flat square container. Then, add 2 cups of water from the triangle cup, and mix it using the fork.

Now, roll down the top of your plastic bag, and put the mixture in. Roll up the top part again, twist it closed, and cut the corner with scissors. Squeeze out the mix onto the wrapping like spaghetti.

Arrange the "Obento"!

Roll up the "eggroll" with the fork, then take it from the tray. Take out the broccoli and octopus sausage from the tray and put them on the wrapping.

※Trim the edges of the octopus sausage if needed. ※Be careful not to cut the jelly.

Kracie Foods, Ltd.

Make sure to wash your hands first!

Please do not use mineral water which has high levels of calcium (hard water), because it might be unable to mix well with the powders.

Allergen indication based on the Japanese regulations

Milk, egg, soybeans, squid

This product is manufactured at facilities that used wheat.
