

PORTABLE MEDIA STYLE MODEL M36 PAC

APPLICATIONS:

Welding Smoke & Fumes
Grinding Dust
Graphite Machining
Shops/Maintenance
Woodworking
Technical/Trade Schools

BREATHE EASY WITH PRACTICAL, ENERGY-EFFICIENT AIR FILTRATION SOLUTIONS FROM INDUSTRIAL MAID

The Model M36 PAC is a versatile portable style unit that uses disposable type filters. This unit can be used for oily welding smoke & fumes, grinding dust, oil mist, vapors and other nuisance dusts. The system is offered in three configurations – an inlet collar for ducting to some type of collection point, a self-supporting arm with hood or a downdraft table.

The standard filters are a 2" washable aluminum mesh, a MERV 7 pleat and a Merv 15 multi-pocket bag. The unit can also be fitted with a final HEPA filter (99.97% eff @ .3 micron) or a V-Bank carbon module for collection of vapors & odors. The motor blower packages can be belt drive or high pressure backward inclined direct drive with CFM ranges from 600–2,000.

The casters allow for portability and a dust dump tray helps collect any larger particles. It is a simple, cost-effective unit with a proven track record in all types of industrial air filtration applications.

M36 PAC Downdrafts

M36 PAC Hood Enclosure

PORTABLE MEDIA STYLE MODEL M36 PAC

CONSTRUCTION

Portable Fume Collectors:

- 12 & 14 Ga. Powder Coated Steel Frame
- 16 Ga. Steel Door
- 3/16 Polyethylene Panels
- Full Carbon Steel Construction Available
- 4-way Aluminum Exhaust Grille
- Casters

M36 PAC Dual Downdraft

OPTIONS

- 2" Poly Pad
- 2" Spark Baffle
- Carbon Filters
- Magnahelic Pressure Gauge
- Direct Drive BI Blower
- HEPA Final Filter (99.97%)

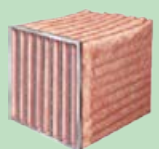

STANDARD FILTERS

Aluminum Mesh

Pleated Panel Filter

Extended Surface Pocket Filter

SPECIFICATIONS

Model	Motor	Volume (CFM)	Dimensions	Weight	Blower	Filters
M36 PAC Single	1 HP TEFC 115/1/60	1,500	78.75"H x 41"W x 24"D	395 lbs.	10 x 10 Belt Drive	(1) Merv 7, 4" Pleat (1) MERV 15 Bag*
M36 PAC Dual	3 HP TEFC 230/460/3/60	2,000	78.75"H x 40"W x 24"D	485 lbs.	10 x 10 Belt Drive	(1) Merv 7, 4" Pleat (1) MERV 15 Bag*
M36 PAC DT24	1 HP TEFC 230/460/3/60	1,500	78.75"H x 41"W x 24"D (height includes stand)	395 lbs.	10 x 10 Belt Drive	(1) Merv 7, 4" Pleat (1) MERV 15 Bag*
M36 PAC DT24x2	3 HP TEFC 230/460/3/60	4,000	78.75"H x 60"W x 46"D (height includes stand)	615 lbs.	10 x 10 Belt Drive	(1) Merv 7, 4" Pleat (1) MERV 15 Bag*

PORTABLE CARTRIDGE STYLE MODEL PFC

APPLICATIONS:
Welding Smoke & Fumes
Grinding Dust
Graphite Machining
Shops/Maintenance
Woodworking
Technical/Trade Schools

PFC8-DD32

BREATHE EASY WITH PRACTICAL, ENERGY-EFFICIENT AIR FILTRATION SOLUTIONS FROM INDUSTRIAL MAID

Industrial Maid Models PFC8 and PFC12 are in demand for source capture of welding fumes, grinding dust, plasma smoke and other nuisance dust applications. A flexible, spark-proof Z-Max fume extraction arm captures fumes and dust at a distance of 12-20" (30-50cm) from the source and within an area of 20" (0.5m) diameter. The welding fume arms are available in 6" or 8" diameter and 7', 10' or 14' lengths. The arms feature a conical hood with optimized airflow, ring positioning handle, simple exterior support joints and built-in damper.

Utilizing leading edge technologies such as our unique "Filter Hammer" sonic cleaning system ensure your mobile fume collector will perform at its best and give you a long cartridge filter service life. A simple pneumatic push button cleaning system (requires compressed air connection) and sealed dust tray make cleaning the systems a breeze. Our portable fume collectors provide ample airflow for even the heaviest welding and grinding applications. The 1 HP (PFC8) and 1.5 HP (PFC12) models will create 800 – 1200 CFM at the hood.

Industrial Maid portable fume extractors can also be fitted with an activated carbon filter which removes gases, or a 99.97% HEPA for removal of Hexavalent Chromium and other nasty pollutants. Also available is an optional 32" x 36" downdraft bench in lieu of the arm. Additional features include, easy access filter service door, tool-less filter change out and removable dust tray.

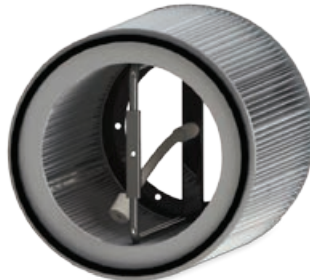

PFC8 with Cartridge Filter

PORTABLE CARTRIDGE STYLE MODEL PFC

CONSTRUCTION

PORTABLE FUME COLLECTORS:

- 12, 14 & 16 Ga. Powder Coated Steel
- 5" Swivel/Lock Casters
- 10" Easy Roll Rear Wheels
- Dust Drawer w/Cam Release Lever
- Tool-less Filter Service
- 6" x 10' Self Supporting Fume Arm
- On/Off Switch with 25' Power Cord
- 220 Sq. Ft. Flame Retardant Cartridge Filter
- 1 or 1.5 HP High Pressure Motor/Blower Package

OPTIONS

- Carbon Pad for Odors
- 3 Phase Electrical
- Filter Service Gauge
- 8" x 10' Fume Arm
- Nanofiber Cartridge Filter
- HEPA Final Filter (99.97%)
- Filter Hammer Pneumatic Cleaning System

When the cartridge becomes dirty, the unit can be cleaned with the Filter Hammer Pneumatic Cleaning System.

SPECIFICATIONS

Model	Motor	Volume (CFM)	Dimensions	Weight	Blower	Filters
PFC8	1 HP TEFC 115/230/1/60	800	33"H x 43.5"L x 30"D	259 lbs.	Direct Drive BI Wheel w/ Composite Cone	(1) 80/20 FR Cartridge
PFC12	1.5 HP TEFC 115/230/1/60	1,200	33"H x 43.5"L x 30"D	263 lbs.	Direct Drive BI Wheel w/ Composite Cone	(1) 80/20 FR Cartridge
PFC8/12 DD32	1/1.5 HP TEFC 115/230/1/60	800/1,200	49"H x 43.5"L x 30"D	365 lbs.	Direct Drive BI Wheel w/ Composite Cone	(1) 200 SF Nanofiber
