## HIRING HEALTHCARE EQUIPMENT AND MOBILITY AIDS

Generally the use of healthcare equipment and mobility aids is relatively short term, therefore if buying is not suited to your circumstances, hiring may be a good alternative.

Determining what you need may not be as easy as it sounds. There are many alternatives when it comes to healthcare equipment and mobility aids, so be sure to check with your medical practitioner, or spend some time discussing your requirements with our staff, who are very happy to assist you and make a recommendation.

Our staff will provide you with instructions on how to use the equipment, particularly in regard to height adjustment, to make sure it's right for the size of your body. If you have any further questions, call us from home and we'll talk you through it.

We look forward to assisting you with your healthcare equipment and mobility aids requirements. Please be sure to ask us if you have any further questions.

## VENOSAN STOCKINGS

The Sturt Street UFS Pharmacy stocks a range of specialist stockings from Venosan, a world leader in medical grade stocking design.

Venosan compression and support stockings are used to prevent poor blood circulation in the legs. They prevent the pooling of blood in the veins and reduce the risk of deep vein thrombosis (blood clots) in the legs.

Our staff can advise you on fitting and stocking selection.

Some private health funds may provide a rebate on these stockings.
