PROTECTION FROM THE FLU

Being vaccinated with the current year's flu vaccine is your best protection from influenza. As the flu can make you seriously unwell, we're encouraging anyone over the age of six months to be vaccinated. The flu shot is safe and effective and as it doesn't contain any live virus, it can't give you the flu.

You can book appointments at participating UFS Pharmacies by visiting ufs.com.au/flu (for patients 10 years of age and over) or by phoning a UFS Medical centre for an appointment. For more information go to ufsmc.com.au/flu

DO YOU TAKE MORE THAN FIVE MEDICATIONS?

If you take more than five medications a day, you can book a free MedsCheck appointment with your local UFS pharmacist. The MedsCheck aims to:

- Identify problems that you may be experiencing with your medicines;
- Help you learn more about your medicines including how medicines affect medical conditions;
- Improve the effective use of your medicines; and
- Discuss how to best use and store your medicines.

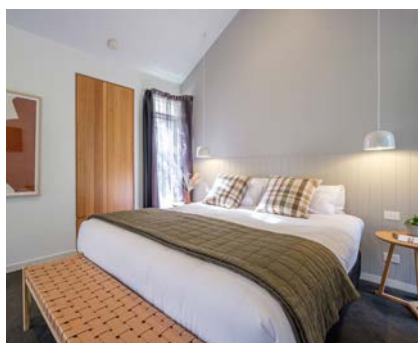

For more information go to ufs.com.au/medscheck

SWITCH TO EMAIL FOR YOUR RENEWAL NOTICE

Did you know you can choose to receive your annual UFS membership renewal notice by email? As well as being convenient, this also helps reduce our impact on the environment. If you'd like to switch, please email us at membership@ufs.com.au
