

EXTENDED RELEASE

DEODORIZER
AIR PURIFIER

Easy-to-use kits and solutions.

SMT EXTENDED RELEASE

ABOUT THE PRODUCT

Our Fast Release product utilizes cutting edge Ultra-Pure ClO₂ technology to deodorize and purify air in homes, offices, warehouses, and more.

OFF GAS DEODORIZER

- Humidity activated ultra-pure chlorine dioxide (ClO₂) generator/ space cleaner.
- Ideal for odor mitigation protocols and limiting cross-contamination of odors.
- Primarily used to stop the growth of common greenhouse mold and fungus like Pythium, fusarium, and powdery mildew.
- Simple installation and easy refill.
- Lasts up to 30 days once activated.
- Ships as dry good.
- 18-month shelf life from date of manufacturing.
- Compliant with OSHA and EPA chronic exposure.
- No PPE required.
- Improves air quality - Safe around plants.
- Neutralizes smoke from all porous and non-porous surfaces.

Contents

Our products utilize our patented micro-reactor technology meaning only the most pure ClO₂ will be emitted into homes.

Use

1. Remove sachet from pouch.
2. Place sachet into clamshell container.
3. Set product in central area (avoid putting directly in front of ductwork).

Size

1K (1,000 ft ³)	2.5K (2,500 ft ³)
4K (4,000 ft ³)	10K (10,000 ft ³)

ABOUT SMT

SMT's patented ClO₂ formula is a reliable, environmentally-aware alternative to conventional antimicrobial and cleaning solutions. By selectively targeting bacteria at a molecular level, ClO₂ effectively destroys microbial life without destroying equipment. It is extremely effective at low concentrations and does not leave residual chemicals.
