

Dry Gas Fumigation Device

- Dry gas rapid delivery device able to spread Ultra Pure ClO₂ in any space up to 20,000 ft³.
- SMT's Ultra Pure ClO₂ (Selectocide®) will disinfect, sanitize, and deodorize every surface in a designated space, even the hard-to-reach places microorganisms hide.

Why Choose Us?

SMT's ClO₂ formula is a reliable and environmentally-aware alternative to traditional odor-masking products. By selectively targeting substances at a molecular level, ClO₂ speedily destroys odor-causing substances without corroding surfaces or equipment. ClO₂ is extremely effective at low concentrations and leaves no residue.

→ Why This Product?

It rapidly releases ultra-pure chlorine dioxide gas that cleans the air in enclosed spaces.

→ Industry Usage

- Real Estate/Remediation
- Automotive and RV
- Marine, boats, and yachts
- Agriculture

→ Easy to Use

Simply generate the Ultra Pure ClO₂, place the Zooka over the generated Ultra Pure ClO₂, turn on, and walk away. Will spread proper amount of ClO₂ in 5 minutes.
