Thank you for purchasing the Air Innovations® Compact Plug-In Air Cleaner with Built-In Outlet & Nightlight. This product comes with a 1-YEAR WARRANTY from the date of purchase as your satisfaction is our primary concern.

### **HOW IT WORKS**

Qρ

The Air Innovations® Compact Plug-In Air Cleaner with Built-In Outlet & Nightlight uses state of the art ionic technology to safely clean and freshen the air. This Air Cleaner produces static electricity (negative ions) that attach to airborne pollutants and allergens like dust, pet dander, smoke, pollen and more. These now negatively charged particles are attracted to the positively charged Permanent Stainless Steel Filter like a magnet helping to pull them out of the air. At the same time it generates safe levels of ozone (less than 0.04 parts per million) which helps to neutralize and eliminate odors, not mask them, leaving your air smelling outdoor fresh. This action is very similar to the way nature uses thunderstorms to clean and deodorize the air outside.

### HOW TO OPERATE

1. To turn the unit ON

- simply plug into any outlet. You will immediately smell the fresh clean scent of the Plug-In Air Cleaner. This is similar to the smell just after a spring rain.
- 2. To use the optional LED Nightlight turn the switch on the left side of the unit to either ON or OFF.

3. Convenient Built-In Outlet allows you to plug in any small appliance.

**WARNING:** the Built-In Outlet is designed for low amperage appliances. Appliance MUST NOT EXCEED 5 AMPS.

### TO ENSURE YOUR APPLIANCE IS BELOW **5 AMPS, FOLLOW THE STEPS BELOW:**

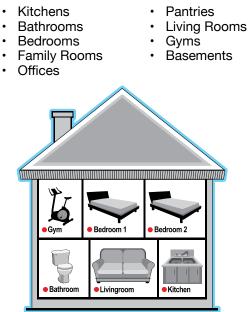

- 1. Locate the wattage and voltage of the appliance.
- 2. Divided the wattage by the voltage (Amps=Watts/Volts)
- 3. A WARNING: If the appliance is higher than 5 Amps, **DO NOT** use with the Plug Bypass.

### PLUG ONE IN EVERY ROOM **OF YOUR HOME OR OFFICE!**

This is designed to clean the air and help neutralize odors in any average size room. For larger rooms two or more units are suggested.

Great for:

- Offices

- safety feature.
- Air Cleaner.
- the Air Cleaner.

# SAFETY INSTRUCTIONS

A WARNING: This Air Cleaner has a polarized plug (one blade is wider than the other) as a safety feature. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. A WARNING: DO NOT attempt to defeat this

WARNING:DO NOT use wet hands to plug or unplug the Air Cleaner from power socket.

• / WARNING:DO NOT wet or soak the

• **WARNING:DO NOT** insert metallic items into

WARNING:DO NOT dismantle the Air Cleaner to avoid electric shock and damage to the internal parts.
